

## SHORES OF GREAT LAKES ARE STREWN WITH WRECKAGE OF THREE DAY'S GALE

## STORM COSTS LIVES OF THREE SCORE OF SAILORS AND PROPERTY LOSS OF UNESTIMATED MILLIONS

**Survivors Arriving In Various Ports Tell of Hardships and Heroic Rescues—On Land the Storm Hits Hardest at Cleveland, O., Where 21 Inches of Snow Fell and Five Persons Are Killed—City Faces Danger of Food Scarcity.**

### Lead SHORES OF GREAT LAKES

**BULLETIN.**  
PORT HURON, Mich., Nov. 11.—According to the Port Huron Times-Herald, the capsized steamer, the identity of which has been hidden by the waters of Lake Huron since she was discovered late Monday afternoon, is the Regina, of Toronto, Ont.  
The vessel is owned by the Canadian Inter-lake line, limited, of Toronto. She is 249 feet long and 43 beam.  
It was definitely established late tonight that no lives were lost in the wreck of the steamer Northern Queen off Kettle Point on the Canadian shore of Lake Huron.  
Nineteen of the twenty-two members of the ship's crew reached shore safely late today. The captain and his two mates remained on board the vessel in the belief that she is in no danger of breaking up.  
Ten bodies have been washed ashore on the Canadian side of the lake above Sarnia. Of these, two were identified as having been members of the Regina's crew. Two of the bodies were in a life boat marked "Regina" and two oars washed ashore also bore the steamer's name.  
The Regina left Sarnia, Ont., early Sunday morning with a cargo of package freight for Harbor Beach, Mich.

CHICAGO, Nov. 11.—The shores of Lakes Superior, Huron and Erie were strewn tonight with the wreckage of a three days' gale and snowstorm which cost the lives of probably three score of sailors, turned bottom up in mid-lake a 300 foot vessel with its crew, wrecked or grounded numerous other craft and caused a property loss as yet unestimated but which will run into millions.  
The full details of the storm which literally swept from the westernmost end of Lake Superior to the eastern shore of Lake Erie, became known only today when survivors began arriving in various ports with tales of hardships and heroic rescues seldom equaled on the lakes. On land the storm hit hardest at Cleveland, Ohio, where 21 inches of snow fell, where five persons were killed and ten others lost. The death toll with many ports unreported is told thus:  
Twenty-five or forty men probably drowned in the overturning of a freighter found floating in Lake Huron.  
Five bodies were washed ashore at St. Joseph, on the Canadian side of Lake Huron (four were belts marked London).  
Three bodies washed ashore on the west shore of Lake Huron.  
Two bodies washed ashore opposite the position of the overturned boat.  
Six members of the lightship drowned in Lake Erie near Buffalo, N. Y.

**Escapes Are Numerous.**  
The escapes from death were numerous. After the storm about Friday midnight had blown away the forward part of the ship, Captain J. W. Duddleson of the steamer L. C. Waldo, navigated by a small inaccurate compass and the aid of a lantern held by a sailor. In this way he guided himself and crew to a reef where the crew on landing, suffered from intense cold and hunger until their rescue today.  
The crew of the Turret Chief when the ship struck the rocks in Lake Superior were forced to go ashore scantily clad. They built a hut to protect themselves from the blizzard.  
It was impossible even to estimate the loss to vessels totally wrecked or damaged by grounding. Shippers in Detroit estimated the loss in Lake Huron and the Detroit and St. Clair rivers alone to be several hundred thousand dollars. Three of the wrecked steamers increase the loss by \$500,000 while the scores of smaller craft driven ashore in Lake Superior and Lake Erie will send the total much higher.  
Unidentified 300 foot steel freighter, lying bottom up in Lake Huron, a few miles north of Port Huron. Built in Canada, cargo probably was flax. United States life saving crew found vessel in such position to have made it almost impossible for any of her crew to have escaped.  
Light ship No. 82, in Lake Erie off Port Albino, fifteen miles west of Buffalo, with crew of six, believed to have lost life here.

**Streets Are Impassable.**  
The streets are impassable for wagons and undertakers are unable to remove bodies of persons who have died since the breaking of the storm. The bodies of seven persons who have died at city hospitals since Sunday night have not yet been removed to morgues, several more are being held at the city's correction farm and even private funerals cannot be held as the bodies cannot be taken to cemeteries. A great part of the citizens are unable to leave their homes and few venture downtown.  
**Bread Shortage Threatened.**  
Many bakeries closed today because of lack of power and unless trains can reach the city soon an alarming bread shortage threatens. An actual famine has been caused because the companies are unable to make deliveries of the milk on hand, or to obtain more from the dairies in the surrounding territory. An average of twenty four inches of snow fell during the storm and snow drifts have piled as high as twenty feet.  
Every highway throughout this section will be impassable for several days.

**Lines May Be Working Today.**  
Fifty hundred workmen this afternoon succeeded in putting fourteen city street car lines in order and others probably will be working on schedule by tomorrow. Meantime telegraph and telephone companies cleared away a large part of the wreckage resulting from the destruction of telephone poles and established a few connections with neighboring cities.  
The work of the rehabilitation so far has developed that the blizzard was limited to an area of some fifty miles around Cleveland.  
The hospitals are greatly handicapped. Some have experienced a lack of proper food and others have had to do with candle light.  
**Passengers Marooned.**  
Three hundred passengers are reported marooned in four interurban cars at Gates Mills, near here late today. Relief parties are on the way to them but are encountering huge snow drifts and are greatly delayed. Not until the snow clears away will the police be able to solve the mystery of numerous disappearances reported to them. A Nickel Plate train consisting of forty car loads of hogs and chickens is stalled in West Cleveland. The stock is freezing. The schools were closed today but probably will open again tomorrow.  
It is believed here that the loss of life on the great lakes may total one hundred. Local vessel owners have reports that at least fifteen vessels are overdue at Duluth and Superior and many unidentified vessels are reported wrecked in the upper lakes.  
Business men estimate the loss in business at many millions of dollars.

**St. Petersburg, Nov. 11.**—In the Duma today a motion was made on behalf of the constitutional Democratic party that a committee be appointed to investigate the rights of all Russian subjects was rejected 152 to 92.

**ST. LOUIS, Nov. 11.**—Three hundred men and fifty teams today responded to the "good roads day" call issued by Mayor Chamberlain, of East St. Louis, Ill. They worked on the city's streets and the roads leading into East St. Louis. It is estimated the work would have cost the city \$3,000. Mayor Chamberlain was among those who worked on the streets.

**OSKALOOSA, Ia., Nov. 11.**—The traction plant here is practically in a state of siege tonight. Although strike rioting has ceased the management is apprehensive of further damage and have increased the guard about the power house. It is impossible to approach the plant day or night without being halted by armed guards.

**CHICAGO, Nov. 12.**—Fire early today destroyed the four story factory of Freedman Brothers and company, in the vicinity of the city's business district. The loss is estimated at \$75,000.  
About a year ago the Freedman plant was heavily damaged by fire.

### Tells Graphic Story.

Calumet, Mich., Nov. 11.—Captain J. W. Duddleson, of the Steamer L. C. Waldo of the Bay Transportation company of Detroit, which was broken in two at Gull Rock, Manitou Island, told a graphic history of the wreck upon his arrival with his crew of twenty-five men and two women aboard the tug Hebard at Houghton tonight.  
The storm struck the Waldo at 11:45 Friday night. The mountainous waves tore off the pilot house and all structures in the forward part of the ship. The compasses were lost and connections with the electric lighting system broken. Captain Duddleson's only resort then was a small inaccurate compass which he was enabled to follow with the aid of a lantern held by a member of the crew. With this improvised equipment the boat was headed for the passage between Gull Rock and Keweenaw Point in a northeast gale. The steamer was swayed slightly out of her course and after being tossed for eighteen hours she finally struck the reef. Time after time the crew was in imminent danger of being washed overboard. When the boat hit the reef and the after-house broke, the men were compelled to seek shelter in the windless room, the only structure which withstood the lashing of the waves. Until the arrival of the tug Hebard, carrying the life saving crew of the Portage Lake Ship Canal in charge of Captain McCormick, shortly after seven o'clock this morning, the Waldo's crew was without food. Captain Duddleson declared that were it not for the life savers braving the immense sea which was running this morning his crew would have been in grave danger of perishing.

### Crew Has Lucky Escape.

Captain T. Paddington and crew of sixteen of the Steamer Turret Chief of the Merchant's Line of Ontario, which foundered six miles east of Copper Harbor, Keweenaw Point, Sunday morning, arrived in Calumet tonight bringing to an end one of the most horrifying experiences in the history of lake shipping. Frost bitten, thinly clad and without food since Friday night the crew reached Copper Harbor yesterday afternoon being directed there by a trapper. Today they reached Mandan, Keweenaw county and got into communication with civilization. Food and warm clothing were provided for their comfort until they could be taken to Calumet.

A few of the crew were asleep when the Turret Chief drifted ashore. As a hasty escape was necessary and the men were thrown from their beds, they had time to do but little clothing. A number of them were compelled to leave the boat barefooted and several of these suffered frost bitten feet.

### All Suffer From Exposure.

All of the crew suffered from exposure as they were but thinly clad. None of the men had time to obtain any food as the vessel was pounding badly the doom of the vessel was soon sealed and with waves washing over the bulk the crew picked their way to the mainland. A hut was hastily built and in this the men found some shelter from the blizzard until yesterday morning. Members of the crew believe that the Turret Chief will be a total loss as her position is such that she cannot be removed before the waves pound her to pieces. The steamer was bound for Medelin, Ontario, for Port William and was struck by the east gale while one hundred and ten miles northwest of White Fish Point, Friday night.

### NEGRO WILLS KOMAN THEN COMMITTS SUICIDE.

Angola, La., Nov. 11.—A negro trusty at the state prison farm here today attacked and killed Mrs. Alice Ehlert, wife of the farm physician, and then committed suicide. The Ehlert children, governess heard the sounds of the struggle between Mrs. Ehlert and her assailant and screamed for help. The negro, Harry Harrett, threw force that her neck was broken. She died within a few minutes. Before neighbors reach the house Harrett had killed himself.

### MOTION IS REJECTED.

St. Petersburg, Nov. 11.—In the Duma today a motion was made on behalf of the constitutional Democratic party that a committee be appointed to investigate the rights of all Russian subjects was rejected 152 to 92.

### SPARKS FROM THE WIRES

ST. LOUIS, Nov. 11.—Three hundred men and fifty teams today responded to the "good roads day" call issued by Mayor Chamberlain, of East St. Louis, Ill. They worked on the city's streets and the roads leading into East St. Louis. It is estimated the work would have cost the city \$3,000. Mayor Chamberlain was among those who worked on the streets.

OSKALOOSA, Ia., Nov. 11.—The traction plant here is practically in a state of siege tonight. Although strike rioting has ceased the management is apprehensive of further damage and have increased the guard about the power house. It is impossible to approach the plant day or night without being halted by armed guards.

CHICAGO, Nov. 12.—Fire early today destroyed the four story factory of Freedman Brothers and company, in the vicinity of the city's business district. The loss is estimated at \$75,000.  
About a year ago the Freedman plant was heavily damaged by fire.

## SENATORS PREPARE CONFERENCE REPORT

### "ADMINISTRATION" MEMBERS DECLINE TO MEET SENATE COMMITTEE

Administration Senators Owen, Hollis, Pomerene and Shafroth, Will Present to the Conference Their Version of What President Wilson Wants in the Way of Currency Legislation.

WASHINGTON, Nov. 11.—Declining to meet with the senate banking and currency commission pending action on the currency bill by the Democratic conference called for tomorrow the "four administration" committee members today continued the preparation of their report to the conference. The other committee members agreed to adjourn till Thursday morning to await the outcome of the conference. Owen, Hollis, Pomerene and Shafroth will present to the conference their version of what the president will accept in the way of currency legislation. They will report the administration bill as it passed the house, it is expected, with but a single important amendment. The other changes will be alterations of phraseology calculated to correct evident errors or to make the meaning clear. It is understood that the president is willing to yield one important point for which there had been widespread demand, the elimination of the words "or lawful money" from the redemption section of the bill, making the proposed new currency redeemable only in gold. The Republican members of the committee decided to await the action of the caucus before taking affirmative steps but they are planning a report to the senate which will recommend a measure based on the general lines of the Glass bill. They will include, however, amendments which the senate committee adopted providing for not more than four regional banks, to be publicly owned and controlled by the government as opposed to the administration plan for bank owned and bank controlled regional banks.

### HEINIE ZEM IS NO LONGER IN FRATERNITY.

New York, Nov. 11.—Heinie Zimmerman, the hard hitting third baseman of the Chicago National league club, is no longer a member of the baseball players' fraternity. L. Fultz, president of the players' organization, tonight stated that Zimmerman had been dropped for non-payment of dues.

## PINDELL CONFERS WITH PRESIDENT WILSON AND SECRETARY BRYAN ABOUT AMBASSADORSHIP

WASHINGTON, Nov. 11.—President Wilson personally inquired today into the details of the tangle over the publication of letters purporting to have been written by Senator James Hamilton Lewis, of Illinois, offering Henry M. Pindell, the ambassadorship to Russia for one year without diplomatic responsibilities.

Mr. Pindell who has been reported upon as acceptable to the Russian government, arrived in Washington today and met Secretary Bryan and Senator Lewis, assistant attorney general, laid the details of the subject before the president.  
Mr. Pindell furnished copies of all correspondence that had actually passed between himself and Senator Lewis and the newspapers containing alleged copies of these letters.  
The matter is entirely in the president's hands. Mr. Pindell said as he left the executive offices. No other word was forthcoming from him, though there was an intimation that a statement clarifying the whole affair would be issued by either the white house or the state department tomorrow. Mr. Pindell expects to leave tomorrow for his home in Peoria, Ill.

The presence of Mr. Graham in the conference with President Wilson led to the report that the department of justice might institute an investigation but Mr. Pindell said later that Mr. Graham was there chiefly as a personal friend interested in some phases of the case.  
Senator Lewis later was in conference first with Mr. Graham at the department of justice and then with Secretary Bryan at the state department. He declined to talk.

Intimations have come from Mr. Pindell that the letters as published were not genuine and Senator Lewis told some of his friends today that his refusal to talk about the published letters ought not to be construed by anybody as a confession of their authenticity.  
Friends of Mr. Pindell said tonight that he and Senator Lewis were on as friendly terms as ever and expressed confidence that the nomination of Mr. Pindell would be sent to the senate soon.

## GIANT POWDER AND DYNAMITE ACCIDENTALLY FOUND IN COAL

Discovery of Explosive Spreads Panic Among Firemen and Engineers of Western Railroad.

Grand Junction, Colo., Nov. 11.—One hundred pounds of giant powder and fifty sticks of dynamite, accidentally found in the coal at the Rio Grande Western railroad supply depot at Helper, Utah, today spread a panic among engineers and firemen of engines stopping for fuel.  
The explosive is believed to have been placed in the fuel by sympathizers with the Colorado coal strikers. The coal was shipped to the supply depot from Castle Gate, Sunnyside and Utah towns.

### RAILWAY & LIGHT EMPLOYEES FORM ORGANIZATION

A number of employees of the Jacksonville Railway & Light Co., and local members of the Illinois Traction System Hospital association met last evening at the company office on South Main street and formed a permanent organization. A smoker and social hour was enjoyed after the transaction of business. J. W. Mann was elected president, C. C. Pickup secretary and Jesse Graves treasurer. A committee on by-laws was appointed consisting of Louis Conner, W. B. Miser and Otto Kuchmann. A sick committee was named, composed of John Doyle, Hubert Little, John Burkley, Joseph Fernandes and William Christiansen.

## MISSOURI SEEKS TO OUST BIG PACKERS

### STATE WILL ARGUE AGAINST FIVE COMPANIES TODAY

State Seeks to Oust the Armour, Swift, Morris, Hammond Packing Companies and the St. Louis Provision Company From Missouri.

JEFFERSON CITY, Mo., Nov. 11.—The suit of the state of Missouri against five big packing companies being prosecuted under the anti-trust statutes, will be argued before the supreme court here tomorrow. The suits were instituted by Governor Major while he was attorney general against the Armour, Swift, Morris, Hammond Packing companies, and the St. Louis Dressed Beef and Provision company. The state seeks to oust the companies from Missouri.

The suit was based on the assumption that the National Packing company of Chicago was the holding company for Armour, Swift, Morris and Hammond and that the St. Louis Dressed Beef and Provision company was owned by the National company. Since the information was filed the National has dissolved and it will be contended by the attorneys for the defense that the lapse of time and the changed conditions since the suit was filed will answer any demand for a judgment against the companies.

Judge Dillon of St. Louis, commissioner of the supreme court, found against the companies but noted the changed conditions incident to the dissolution of the National Packing company. The defense will contend that the mere ownership of the stock in the National is no evidence of the illegality of such ownership or that it was used illegally.

### WILL NOT BE RETURNED.

Manila, Nov. 11.—A number of civil service employees, who are coming to the United States on their vacation, have been asked not to return as the government is instituting a system of economy on account of the probable financial deficit.

### GETS OFF BAR SAFELY.

Port Arthur, Ont., Nov. 11.—The Northern Navigation Steamer Huronic, with fifty passengers aboard, got off the bar at White Fish late this afternoon without damage.

## AMERICANS PRACTICE PROGRESSIVE POLYGAMY

### BISHOP CHARACTERIZES DIVORCE AS NATIONAL CRIME

Bishop McCormick Asserts Number of Divorces Granted in America Is an Evidence That Trial Marriage Is Favored—Great number of Divorce Lawyers Is Disgrace.

MINNEAPOLIS, Minn., Nov. 11.—Bishop J. N. McCormick of Grand Rapids, Michigan, in an address before the International Purty congress here late today characterized divorce as "the greatest question in the world today, as a national crime against childhood and a confession of failure and weakness by the American people."

"The number of divorces granted in America is an evidence that we are practicing progressive polygamy," continued the speaker. "America is held up and rightly, as the land of easy divorce. It used to be shameful, now it is almost respectable."

"One of the causes of divorce is the flippant attitude we adopt toward it. Men and women actually boast of the number of their marriages. The number of our professional divorce lawyers is a disgrace to the country."

"If we would spend less time on the problem of divorce and more on the problem of marriage, the world would be better off."

"Make our homes more attractive and cultivate the old fashioned virtues of patience, contentment, self sacrifice and christian charity and the divorce evil will disappear."

A step which will aid in its solution would be for the clergy of all churches to agree not to marry persons who could not be married in their own church."

### A. B. Farwell Speaks.

"Use the injunction to stop the segregation of vice," was the advice given the convention by Arthur Barrage Farwell of Chicago, secretary of the Hyde Park Protective association of Chicago, which for fifty years has fought the illegal sale of intoxicating liquors, gambling and other immoral conditions.

## CABINET STANDS BEHIND PRESIDENT

### Will Back Wilson In His Efforts to Force the Retirement of Provisional President Huerta

### DISCUSS MEXICAN SITUATION

All Members Favor Steps That Will Convince Huerta That U. S. Is In Earnest In Its Demand That He Eliminate Himself

### DIVIDED ON RAISING OF ARMS EMBARGO

WASHINGTON, Nov. 11.—President Wilson's cabinet stands behind him in his efforts to force the retirement of Provisional President Huerta as a necessary step to the pacification of Mexico. For more than two hours today this cabinet discussed every phrase of the Mexican situation and the consensus of opinion was that the United States government should not take a single backward step in its announced program looking to the restoration of constitutional government in the neighbor republic. Though the secretaries were reticent afterwards about expressing their views, it became known that all favored steps which would convince Huerta that the United States was in earnest in its demand that he eliminate himself from the situation. On the question of raising the embargo on arms, the cabinet members expressed various opinions. Some expressed the opinion that a practical and perhaps easy solution of the difficulty but there was no final decision on the point. There is a hope on the part of both the president and Secretary Bryan that a measure so radical as permitting exportations of arms may not be required to solve the problem. Influences are at work which in the mind of officials may force the early collapse of the Huerta regime.

### Discourage Financial Aid.

There is a closer understanding for instance and more frequent than has been in evidence at any time since the Mexican problem became so widely international. Not only through the American embassies and legations abroad but through the diplomatic corps in Washington Secretary Bryan is giving such detailed information of the American policy as to leave no doubt of what the United States would like to see accomplished. So far as known, there have been no direct requests for foreign support. But the strong intimations that the United States would like foreign nations to refrain completely from interference in the affairs of the Huerta government are expected to produce tangible results. What the United States is seeking is an acquiescence in its policy by the powers of such an approval to carry with it discouragement of financial aid to the Huerta regime through any foreign subjects. A few weeks ago like this urged Mr. Farwell, "can be brought against any house of ill-repute in the United States where a property owner near them is damaged to a greater degree than the damage to the general public and where sights and sounds are objectionable."

### FIVE PERISH IN BLAZE THAT DESTROYS THEIR HOME

One Over Person Badly Burned in Fire at Browning Early Tuesday Morning.

Springfield, Ill., Nov. 11.—Forced to wake through fire after being trapped on the second floor of their home at Browning, near Beardstown, five persons perished, and one was injured in an early morning blaze that destroyed their home. The fire was discovered by trainmen on a passing train.

### The Dead.

W. D. Laseter, 54 years old.  
Pauline McPetridge, aged 1 year.  
Mary McPetridge, aged 3 years.  
Mrs. W. D. Laseter, entire body burned.

### The Injured.

Harmon Laseter, aged 19 years, badly burned, will recover.  
When discovered the fire had nearly destroyed the entire first floor of the house. With all avenues of escape cut off the members of the families made desperate efforts to save themselves and children from the burning structure. Aid was rushed to the injured from Beardstown.

### WILL GO TO COAST LEAGUE.

Columbus, O., Nov. 11.—Manager Arthur Devlin of the Oakland Pacific league team tonight purchased Pitcher Geyer from the St. Louis Nationals and Manager Hogan of the Venice team of the same league completed a deal for Pitcher Chellette of the St. Joseph Western league team.

### BANKER CHOSEN PRESIDENT.

New York, Nov. 11.—William M. Kingsley, banker, was elected president of the board of directors of the Union Theological seminary at a meeting of the directors and faculty today. He succeeds Robert C. Ogden, who died last August.

Read the Journal; 10c a week.

### ILLINOIS COLLEGE STUDENTS HOLD ANNUAL LEAF RAKING.

The annual Illinois college leaf raking was observed Tuesday afternoon. The students, armed with rakes, collected the leaves on the athletic field and the girls prepared good things for the 5:30 supper, served by members of the faculty in camp-fire fashion. The menu included beans, pickles, sandwiches, pumpkin pie and coffee. After the supper a number adjourned to the gymnasium where a short informal dance was enjoyed. Prof. P. F. Whisler was the chairman of the committee on arrangements.

**Tableware That You Will Always be Proud of**

When you purchase sterling silver tableware you are investing in a ware that will last through your entire lifetime—

And then it will be given to your children and in turn to your children's children.

Each year as the silver grows in age it will increase in value for about it will be assembled the lore of your family.

It isn't necessary to buy the entire set at once. Just select a few pieces now, choosing a pattern that you can match at a later date and then you can add to it from time to time as you wish.

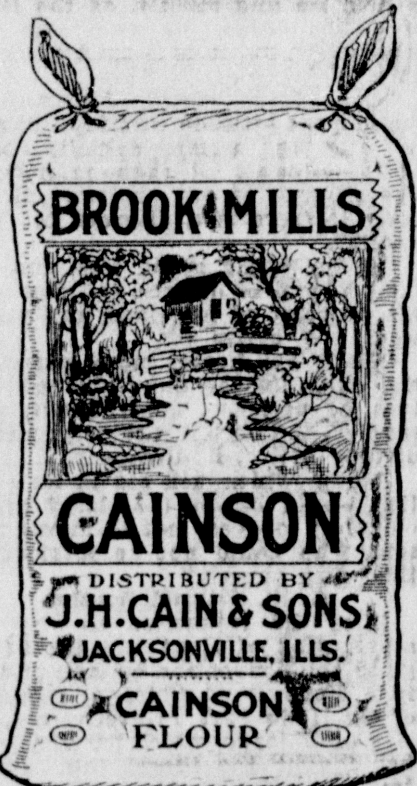

You will find a magnificent assortment of patterns from which to choose in our solid silver department and you will have no trouble in matching any of them at a later date.

**Schram's**

## Eat More Home Made Bread And Teach Your Daughter To Make It With "Cainson Flour"

Girls are just as anxious to learn the art of home baking as the boys are to enter Manual Training. And we know that every mother is proud of what her girls and boys can do.

If you encourage your daughter to increase her skill in baking, give her a sack of "Cainson Flour" and let her have the full swing of the kitchen. In this way she'll put into practical use what she has been taught in the Domestic Science Class in school.

## North Dakota Farms On Crop Payments

If you are now renting and want to get onto a farm of your own, you will find an attractive proposition among our 20,000 acres of improved and unimproved North Dakota land. Improved lands \$32 to \$75 per acre; unimproved, \$20 per acre and upwards.

If you will come up to North Dakota with a full and complete farming outfit—and will either bring a good bunch of stock along or buy it here—you get one of our first-class farms in the famous Red River Valley or elsewhere, on the crop payment plan. You will have to make only a small cash payment.

### Buy Now While Prices are Low

Are YOU interested? If so, tell us how large a farm you want; number of horses, cows, etc., and what farming equipment you have; and about how much of a payment you can make, and we'll make you a proposition. Write us at Fargo, or see Wilkinson Bros., our district managers at Jacksonville. Free literature.

## B. C. 3500

The first prescription was written on Egyptian stone 3500 B. C., and is now in the Metropolitan Museum, N. Y. City. The first prescription dispensed from our files was put up by Robert Hockenhall, senior, in 1842, and can be seen in our east side store window, together with others of same and subsequent years, down to the present time; nearly 50,000 of them in all.

These 50,000 prescriptions represent the accumulation of 71 years' continuous business, and when you take into consideration that in the last 25 or 30 years all the physicians have been dispensing practically all their medicines from their offices, it shows a record of work that we are justly proud of, both for our predecessors as well as ourselves.

This is the day and age of specializing in most all the arts and sciences. We specialize in that of dispensing physicians' prescriptions, and call ourselves the Prescription Specialists. Our intimate knowledge of drugs enables us to personally direct the compounding of them; the supervision of the filling of your prescriptions assures you that no error will be committed in the selection of the proper and purest drugs. Absolute excellence is our standard. We will not tolerate substitution. Our label is a guarantee of quality and we give most careful attention to every article which leaves our stores.

In order to carry out our Specialty we have opened (as you probably know), a prescription room in the Ayers Building, No. 201, for the exclusive compounding of physicians' prescriptions and family recipes. Hours 1:30 to 11:30 morning; 2 to 5 afternoon. We cordially invite you to call in and see our Prescription room. East and West Side Stores of Coover & Shreve can supply all your drug wants. We guarantee perfect satisfaction, and are ready to promptly deliver any telephone order or call for prescription and return it to you after it is prepared.

WE WANT TO SERVE YOU.

**COOVER & SHREVE**

## LIGHT QUESTION GETS THOROUGH DISCUSSION

PROF. BRYANT'S REPORT PRESENTED TO CHAMBER OF COMMERCE DIRECTORS.

Outlines Cost of Plants For Arc and Tungsten Systems and For Both Municipal and Commercial Lighting—Traction Company Has New Propositions—Dependent Upon Franchise Grants—Directors Pass Resolution Favorable to Municipal Plant Plan as Outlined by Council.

The meeting of the directors of the Chamber of Commerce Tuesday night proved a very interesting and enlightening one. The special business before the session was to hear the report of Prof. Bryant of the University of Illinois on the local lighting situation as presented by the committee consisting of H. J. Rodgers, Dr. Rowe and J. J. Reeve. This report was presented without recommendations. In addition to the directors of the Chamber of Commerce there were present Mayor Davis, Commissioners Brennan and Newman, Messrs. Miser and Hight, representing the McKinley interests, Dr. Dewey, Mrs. J. H. Danskin, Mrs. David Reid and a number of citizens.

The discussion resulting from the reading of the report and the Traction company proposition continued until 10:15 o'clock and then Prof. Bryant on motion of Frank Byrns called for an executive session of the directors at which time a resolution of approval for the municipal plant proposition was unanimously passed. This resolution which was proposed by H. J. Rodgers and seconded by Dr. Rowe was in effect that the directors of the Chamber of Commerce go on record as favoring a municipal lighting system as proposed by the city council provided the plans are for at least 700 tungsten lamps; an expert engineer to be employed, and provided further that the Illinois Traction system has nothing better to offer than thus far made known.

**New Company Proposal.** After presenting the opinion of the expert Mr. Rodgers read a letter from Supt. Miser offering to furnish the city a complete 800 tungsten system for \$15,000 a year or the current for such a system at \$9,000 a year, in either case the city to collect an income from the company estimated at \$7,500 a year, all however contingent upon the granting of a street car franchise for 20 years, electric light, gas and heating franchises for 20 years.

Commissioner Newman made a speech favoring the buying of light from the Traction company in which he presented figures to show that in 20 years this plan would save the city something more than \$250,000. Dr. Rowe made one of the most extended speeches on the question at issue in which he laid special stress upon the moral obligation of the company to deal with special liberality with Jacksonville in view of the fact that for years they have operated without a franchise. The interesting figures Dr. Rowe presented along this line are printed in another column. Commissioner Brennan who had not intended to speak gave a very lucid explanation of the city's needs and made clear his position as unalterably opposed to buying current from anybody.

**Mr. Rodgers Presented Report.** After reading the report and the communication Mr. Rodgers displayed on the wall a map which he had outlined showing the possible distribution of 700 tungsten lamps. The plan would contemplate, three light boulevard lamps all around the square, on State street from Church to Clay avenue, Main street from Wabash road to College street, one light boulevard lamp on other streets leading to the square and a 100 watt lamps on every street corner in the city. The lights would be at the side of the street instead of in the middle and on alternate sides of the street. The speaker summed up the situation by saying that such a system the council thought could be installed for \$50,000 and that by some additions to the light plant that it would be possible to do all of the pumping of water from the plant. The cost of operation would be \$8,000 a year or more, with interest charges of \$2,500; a deterioration cost, with this plan, however the city would have the beginning of a commercial lighting plant and could add to the plant as it acquired business and funds to build. The tungsten system would cost more in the beginning but less for maintenance and operation. The tungsten lamps used for such light are made with a strong filament and are not easily broken. The speaker said that the establishment of the equipment for such a system would take every dollar of the \$50,000 asked for and Mr. Bryant believed that \$60,000 would be required.

**Mr. Newman's Figures.** Mr. Newman in his remarks advocating the purchase of light, repeatedly called on Mr. Miser to state if the terms of the original Newman-Miser agreement would stand now and Mr. Miser's replies were in the affirmative. This agreement contemplated \$1.10 gas, 10 cent electricity, franchises for 20 years, 3 per cent on the gross earnings of the company. Mr. Newman figured that the interest in 20 years on the bonds would be \$26,252 and the cost of operating the plant at least \$10,000 and that at the end of 20 years that the plant would be junk. He figured that on the proposition made by Mr. Miser that the city would buy light for \$4500 a year and that such a contract would save the city about \$200,000. He mentioned too the expense for accidents which the city would escape by this contract and said too that the company would buy the city's poles. He said that he would rather see a bond issue for a water supply than unless something was done about securing a better supply that the time might come

when the enterprise we now have will be endangered.

Mayor Davis was called on by President Andrews but stated that he had come to the meeting to listen and not to talk. The ladies present were also invited to express their views, but replied that they were simply listeners.

**Differences Explained.** Dr. Baker was unable to understand why the Light company had made an offer to Mr. Newman of 200 arc lights or equivalent in tungstens, for \$12,000 and that in the communication of the evening that \$15,000 was asked. Mr. Miser said that the difference was occasioned by the change in the plans for lighting, the present plan calling for the expenditure of about \$30,000 more than the plan discussed with Mr. Newman. He said that he would abide by the Newman proposition if the lamps were put on brackets and boulevard lamps not used to the extent contemplated in the plan.

F. J. Heintz asked if the plant as contemplated by Mr. Brennan would be equipped to make a beginning of commercial lighting and the reply was in the affirmative.

Dr. G. H. Kopperl and F. E. Farrell asked questions as to meaning of certain points in the propositions and then Dr. Rowe presented his view on the whole situation which as he put it he wanted "to get out of his system." Dr. Rowe has studied the question quite deeply and has very earnest convictions as to the rights of the city and of the company.

Mr. Miser in commenting on Dr. Rowe's suggestions said that the situation now had to do with the future and not the past. He said the company desired to do nothing but the fair thing for Jacksonville and that only as the good will and support of the people was had could the company prosper. He said that as to costs and rates that the company was entirely willing to have the city send an expert to go over the books and then make such rates as would result in earning a fair return on the money invested and a proper sum for depreciation.

Rodgers who said that while the committee had no recommendations to make that he would offer a motion to this effect, "that the Chamber of Commerce go on record as favoring the tungsten system, provided the city council would adopt it and employ an expert and provided the Traction company had nothing better to offer." Dr. Rowe offered a second.

G. E. Doying did not believe that the time had arrived to vote on such a motion. He said that the report had been received ten days ago but had been given no publicity because of the desire of the committee to make their report to the directors first. He felt that action of the kind contemplated should have more consideration.

Dr. Kopperl was of the same opinion and that it would not be fair to commit the Chamber of Commerce on so brief a hearing.

F. J. Heintz was not ready for action not because he was opposed to the municipal plant but he did not feel sufficiently informed.

Frank Byrns was in favor of an immediate vote because the Chamber of Commerce had too often been criticised for delay.

**Brennan Firm For Municipal Plant.** At this point a motion to delay the matter until another meeting to be held a week hence was made as an amendment to the other motion.

Commissioner Brennan who had not intended to speak, at this point was recognized by the chair. He said that the desire of the city council was to have the light bond election held in December before the Utilities bill goes into effect. In order to accomplish this it will be necessary to have the matter passed at the next meeting. He said also among other things, "I believe that the plan is practically identical with the one Mr. Rodgers has outlined can be completed for \$50,000 by using the city's regular employees for part of the labor. In the matter of a building, our plan calls for an expense of \$2,200 whereas Mr. Bryant has figured \$6,000. I am wholly opposed to turning over our plant to anybody. We can light our own streets and begin to sell commercially and add to the equipment as the years go by and say in five, ten or fifteen years we could have built up a profitable business. I want to say right here and now that I am working only for what I think best for the city as I will not be a candidate for reelection and have not all I want of holding down this job. Running a plant of this kind commercially is not an experiment as there are many instances where it is being done in a business like way today. If we are going to turn over the light business to some body why not turn over the water plant as well and let them have it all. It is just as reasonable to make about 12 to 13 per cent on the investment in order to cover interest and depreciation. He said that the rate for electricity must be equalized among light and power users and that if light rates were very low that power rates must be higher or the earnings would not meet ex-

penses. He said low power rates were desirable for building up a city's business. He said too that large sums needed here to bring the plant efficiency which some of the speakers had referred to as desirable because not enough business had developed. Referring to the Hannibal rates which Mr. Brennan at this point called to attention the speaker said that the power rates there were high enough to justify the lower light rates. He then explained from the Utility company standpoint something about how light, heat and power propositions are figured in relation to profits.

Dr. Rowe and Commissioner Brennan disputed the statements made by Mr. Hight with reference to the Hannibal power rates but the statement that the city here uses a power rate so low to attract industries, that the rates are not made public. Dr. Rowe also suggested that the most probable reason that the Traction company had not made larger expenditures here and might not secure \$150,000 more, which Mr. Hight said had been asked for, was because the companies are operating without franchises and so disturb the stability of their properties here as securities for bond issues.

The motion to delay action for one week was put and lost by a vote of seven to five and then came the suggestion for an executive session. At this session the following directors were present in addition to President Andrews and Secretary Fritchey, F. J. Heintz, Frank Byrns, G. E. Doying, W. S. Hight, Henry Fritchey, A. R. Taylor, H. J. Rodgers, E. E. Crabtree, T. M. Tomlinson, Dr. Rowe, W. J. Brady and J. W. Walton. After discussing the matter for ten or fifteen minutes in an informal way, although some of the directors believed that a delay of a week would do no harm and allow for further consideration, eventually the vote for the passage of the resolution already outlined was unanimous. Citizens who attended the joint conference and not before mentioned were Frank Bode, E. F. Johnston and R. L. Pyatt.

## JACKSONVILLE PLAYS BEARDSTOWN SATURDAY

Teams Expect Hard Fought Game With Cass County Aggregation—May Have Special Train.

The Jacksonville High school team met Beardstown high next Saturday and a game royally is expected. Beardstown claims to have a crack team this year and have circulated the hope that they have only met one defeat this year. The game will be played in the I-M park at 2:30 and a record breaking crowd is being touted up in the river town. Jacksonville is endeavoring to get a special train over and the same can be secured if one hundred and twenty five signify their intentions of going. The round trip will be a dollar and anyone can make the trip whether seeing the game or not. Those who intend going should notify Principal Collins today. Jacksonville High has a hard game a week from Saturday against Peoria Manual Training school.

## VICTOR PARISH LICENSED TO MARRY

A telegram received by the Journal Tuesday night announced that Victor W. Parish of this city and Miss Lucile E. Eads of Quincy were licensed to marry in Bloomington Tuesday. The young man is a son of Mr. and Mrs. Jasper Parish of 620 South West street.

The same message also stated that William Parr and Cora Lee Alexander, both of Springfield, secured a marriage license in Bloomington on Tuesday.

## TWO AFTERNOON FIRES KEPT DEPARTMENT BUSY

No sooner had the department returned Tuesday afternoon from a small fire at the residence of J. Philip Read at 222 Sandusky street when an alarm was turned in for a similar blaze at the home of Charles Reed, 428 South West street. Both fires were caused by defective kitchen flues and both were under control when the firemen arrived. At the Read residence the fire was above the kitchen between the ceiling and the roof. In the Reed blaze on South West street the paper was burned from the ceiling of the kitchen.

## NEW LIGHTS ON SQUARE.

Commissioner Brennan has installed six 10 watt tungsten lamps on the square, which will help materially in the lighting of the park as well as illustrating his method of street illumination. The lamps are placed at each entrance to Central park and at each side of the pagoda. It is possible to use them in business districts because of the alternating current and would not burn on the direct arc-light circuit of the residence portion of the city.

## BIRTH RECORD.

Born to Mr. and Mrs. J. M. Carwell, northeast of the city, Monday, a ten pound boy.

Born to Mr. and Mrs. Peter Kincaid of East Independence avenue Monday, an eight pound daughter.

## THE TEMPERATURES.

The temperatures for Tuesday, according to G. H. Hall, weather observer at Alexander, were: maximum 44, minimum 17.

## BIRTHDAY SOCIAL.

The Ladies Aid society of Centenary M. E. church will hold a birthday social Thursday at 3 p. m. at the parsonage. All ladies are urged to attend.

## ATTENDING CLINICS.

Dr. W. P. Duncan and Dr. B. S. Gaffey are among those who are attending the Clinical Congress of Surgeons of North America being held in Chicago.

Congressman Henry T. Rainey of Carrollton was in the city for a few hours Tuesday morning calling on a number of friends. He returned to his home in the afternoon.

## Where Responsibility Rules

Patrons of our store will tell you that the reliability and dependability of our stocks and service entitle us to a share of your business too. Long experience in both retail and wholesale departments have given us an intimate knowledge of what the public really wants.

That is the reason that we are today specializing in the handling of certain goods in bulk. These goods are of the highest grade and quality but by handling them according to our clean and sanitary methods in bulk we are able to give our customers perfect satisfaction and at the same time save them money. So we offer in bulk Rolled Oats, Macaroni, Rice, Beans, Pop Corn, Tapioca, Corn Meal, Coffee, Tea, Spices, Extracts and still other goods in bulk, but guaranteed strictly pure. They come too you less the expensive packing in cartons and cans—the money saved is yours.

### The Finest Nuts

We have since establishing our store carried the VERY FINEST NUTS that have come to this market. There is a vast difference in nuts and it is our policy to offer our customers THE VERY HIGHEST QUALITY. They have especially fine flavor and sweetness and the shells are thin and crisp. This season we are duplicating the accomplishments of former years and if you will take a look in our east window you will see the very finest nuts that have been grown for this year's trade.

ALMONDS, PECANS, BLACK WALNUTS, BRAZILIANS, HICKORY NUTS, they are all there and if you see them then you'll know that the nuts shipped us have certainly been selected from vast stocks. They have not come to us mixed with stones and bark or in damp sacks. These nuts show not only that they are the best of their kind but that they have been carefully and scientifically handled, in the way to put them into the best possible market condition.

### Special Bargain in Peas

We are offering AN EXTRA BARGAIN in Trio brand peas. The figure is LOWER THAN USUALLY OFFERED BY BIG JOB-BERS to the trade. We have only a limited supply. If you are interested COME IN AND ASK THE PRICE and you will certainly buy.

### Pharmacy Department

ROBERTS' COLD CURE, the invaluable remedy and should be in every home and taken just as soon as you feel the first symptoms of a cold coming on. 3 boxes, \$1.00; 25c box.

Thos. C. Jenkinson has taken a position in the clothing store of Jenkinson & Breckon and already can hand out a suit and sell a coat. He will doubtless prove a valuable assistant.

**"CHANGE OF DAY" SUBJECT OF LECTURE LAST NIGHT**

Dr. Edward Thompson Says Sunday Question Is of Great Importance. Gives Address Also Before Illinois College Students.

"Change of Day" was the subject of a lecture delivered Tuesday night at the Central Christian church by Dr. Edward Thompson before a good sized audience. Dr. Thompson goes into his subjects in a scholarly way and they are full of interesting data secured by a great deal of hard study in part he said:

The Sunday question is one of prime importance. Some people keep Saturday claiming that God made the world in six days and rested the seventh, but we must remember that the world was not made in six days of 24 hours each for the word translated in Genesis means an indefinite period of time for we are told that one day with the Lord is a thousand years and a thousand years as one day. We speak of a man as the greatest orator of his day, the mightiest general of his day but we mean something for more than 24 hours.

Moses did not write of days of 24 hours but of long periods of time during which the world was created. But if we admit that the days mentioned by Moses were literally 24 hours each there is no way now to tell whether we are observing the right one or not for the chronology of the world has undergone many changes since its creation. There is no way to determine an exact day for at the poles the days are six months long and the night the same. Nations differ regarding the existence of the day for some begin at six a. m. while we begin at twelve midnight.

The primitive apostles gathered together for worship on the first day of the week and when they were thus assembled the Master appeared in their midst and said "Peace be unto you" and he breathed on them and said, "Receive ye the Holy Ghost." If they were observing the wrong day the Master would not have given His approval as He did give it on this occasion.

**Contrasts of Great Men.**

Dr. Thompson made a strong address before the students of Illinois college yesterday. He contrasted Washington with Lincoln. Washington came from a Lordly family, and was the richest president to take the office. Lincoln came from poor people of humble circumstances and from such surroundings rose to great eminence. Lincoln was raised in Kentucky, where everybody smoked, boys even starting at the age of three and the girls began to dip at six. Lincoln never smoked and while in the store he worked he had to sell whisky like flour or corn meal he never tasted it, and never indulged even at banquets. He never used vile language and like Washington was truthful. This honesty made him a power before his jurors. He mastered the English language out of school and his Gettysburg speech is a model of fine English and was so recognized recently by Lord Curzon, chancellor of the University of Oxford. Dr. Thompson talked of Lincoln. He said he went to West Point purposely to look up why Grant made low marks at the school. He found out that Grant along mathematical lines and in all subjects that were difficult he was at the head of his class, but when it came to keeping his shoes shined, cap clean, clothes brushed off, he fell short. But he was master of difficult problems of war and his leadership undisputed.

**CALL**

Every member of the degree of Pochontas is hereby notified to be present on Thursday, Nov. 13, at Woodman hall at 2 p. m. for purpose of school of instruction. By order

Mary A. Johnson, District Deputy.

**GRACE CHURCH AID SOCIETY.**

The November meeting of the Grace church aid society was held in the church with a large attendance. A number of the ladies met in the morning, remaining through out the day and enjoying a luncheon together at noon. Mrs. Sarah Cocking lead the service of devotion taking for her theme the recent victory over saloons. The minutes were read by Miss Alice Wadsworth and the treasurer's report was presented by Mrs. T. J. Pitner. Mrs. S. O. Shuff, reported nearly 100 calls made by the welcome committee in visiting new members. The committee in charge of the dinner and bazaar to be held at the church Tuesday, December 2, reported that plans are made and that work is well under way. Dinner will be served from 5 to 8 o'clock and seats or tables with special waiters may be reserved by those who wish to entertain friends. A large number of beautiful rugs and pillow cases made for the bazaar were on exhibition at the meeting. A work meeting of the society will be held next Tuesday. Mrs. Nelson's circle will hold a market at Dorwart's Saturday morning and Mrs. Ward's circle will serve coffee Monday afternoon at the grocery of A. R. Taylor.

**TO MEET GENERAL BOOTH.**

Capt. and Mrs. Pinkston of the local Salvation Army, left last night for Chicago, where they will meet Gen. Bramwell Booth, who is to be in Chicago today while on his way from Canada to New York. They will take part in a big street parade which will be held in Chicago this evening. The parade will meet the train and Capt. Pinkston has taken with him a number of Jacksonville banners donated by the Chamber of Commerce which he will carry in the parade. Capt. and Mrs. Pinkston expect to return to the city Monday.

**GOES TO BEDSIDE OF SISTER.**

Mrs. J. A. Crum of West North street was called to Bowen, Ill., Tuesday on account of the illness of her sister, Mrs. John Riste. Mrs. Riste is also a sister of Mrs. Perry Henderson of Litterberry.

**SOCIAL EVENTS.**

The second year academy class of the Woman's college was entertained Monday evening at the home of Miss Beatrice Robertson, 1537 South Main street. Assisting Miss Robertson were Miss Ruth Harker and Miss Mildred Barton. Music was enjoyed and games were played in which a prize was won by Miss Mildred Johnson. Miss Miller and Miss Light, of the faculty acted as chaperones. After refreshments had been served, a flashlight photograph was taken of the company by Claude Vail.

A surprise party was given the family of Fred Lewis, east of the city Tuesday evening in honor of their company, Miss Ada Brown of Roodhouse and J. E. Winter and daughter, Miss Emma, of Aurora, Neb. The company came with well-filled baskets and at 11 o'clock refreshments were served. Among those present were Mr. and Mrs. Wolfe, Mr. and Mrs. John Lewis, Mrs. Charles Lewis, Mrs. John Robinson, George Robinson, Mr. and Mrs. Fred Tendick, Mr. and Mrs. James Rawlings and son Wendell, Mr. and Mrs. Samuel Birdsell, Miss Lois Smith, Miss Ada Brown and J. E. Winter and daughter.

**SPECIAL FOR TODAY. CHOCOLATE BON BON PIE IDEAL BAKERY. E. STATE ST.****PRIZE FOR LOCAL COACHES.**

O. E. Tandy has received a letter from T. G. Trenchard, head coach of University of North Carolina, relative to his son George, who is making quite a record on the football field. He has words of praise not only for George but the coach of the high school and of Illinois college when he says: "I do not know who was his former football coach, but I want to say this much about his ability. He has shown in George the ability to coach a man to develop speed, to watch his opponents and take advantage of their weaknesses or offense and defense and do it quickly. Furthermore, he has instilled the quiet determination that never gives up. I consider George the best center in the south today, but I believe his abilities are so great that next year he could fill some other position as well." Trenchard was the all-American star end on the Princeton team.

**SIGMA PI PROGRAM.**

At a meeting Monday evening of Sigma Pi literary society of Illinois college the following program was given:

Declamers—"Love of Country", Spauld; "The Empire State", Russell; "Burke on the Government of Empire", Alexander.

Readers—"The Tale of an Old Coat", Apple; "A Piece of String", Stotlar.

**INQUEST ADJOURNS**

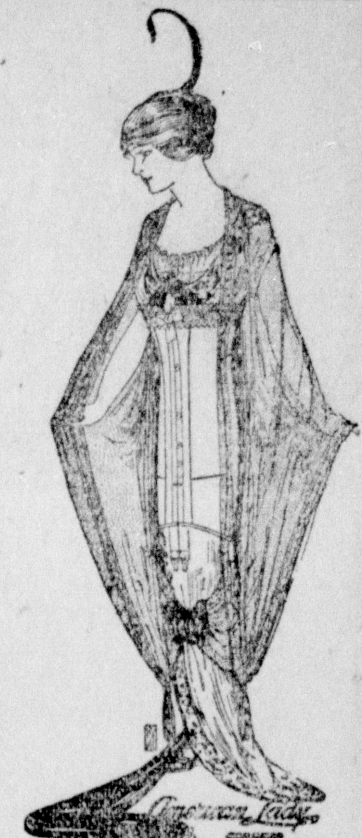

After Jury Is Secured Probe Into Death of John Pieper Is Adjourned Until Today.

Deputy Coroner John M. Carroll impaneled a jury composed of Peter Tilton, foreman; Fred Hutchinson, Percy Cherry, William Guthrie, Howard Woodman and W. S. Camp, clerk, to inquire into the death of John Pieper who was killed by a Wabash passenger train Monday evening just east of the city. The members of the train crew were expected to arrive in the city Tuesday morning for the inquest but as they did not put in an appearance the inquest was adjourned until today after one witness, Harry Smith, had been examined. He was asked to testify as to the identity of the deceased.

Funeral services for Mr. Pieper will be held at the Reynolds undertaking establishment this afternoon at two o'clock. Interment will be made in Jacksonville cemetery.

## PRESENTS OPINION OF RELTION OF UTILITIES COMPANY WITH CITY

Dr. Edward Bowe Believes Traction Company is Indebted to City For Use of Right-of-Way.

At the meeting of the directors of the Chamber of Commerce Tuesday night Dr. Edward Bowe made a statement of his opinion as to the relations between the utilities company and the city in which he expressed the belief that the traction company is indebted to the city for a large sum because it has been operating several years without a franchise. His statement follows:

In this matter I not only have the interest of a citizen and taxpayer but also the municipal pride that our home city merits and demands.

I desire to see our city well lighted with a plant of the maximum efficiency and durability and one that will be in keeping with her natural beauty. As to the type of plant required and its probable cost, there is now but slight difference of opinion between the Chamber of Commerce and the city commissioners. The one embarrassing and troublesome feature in solving this problem has been the clamor and demand for immediate action from a few citizens who have given this matter only superficial thought and investigation. In order to elucidate and emphasize my ultimate proposition, I wish to deal in detail with the facts that now confront us. We have in Jacksonville the city plant and the public utilities plant, until recently as to management and net results produced in the way of efficiency, there was but little difference as to choice between them. Because of the failure of our city government, for some twenty years past, to provide in a financial way for the depreciation in our city plant it is now of little or no value. This fault rests solely upon the male electorate of Jacksonville, many of whom in the past as well as the present are willing to permit municipal affairs to drift along the lines of least resistance, therefore we are without a municipal light plant and without money on hand to construct one.

The present utilities company, who are the successors of a local corporation who were operating here without a franchise began business here in 1906. They simply purchased the physical holdings and good will of their predecessor. It is the policy of this state and city that an individual or corporation who enters into the sale and distribution of a public commodity, such as we have under discussion shall be duly legalized to enter this business. This company being equipped with expert advice in every department was qualified and competent to determine as to their legal and moral right to do business in this community. Reckoning according to their own statement, the rate now proposed for average and small consumers in the future. This proposed rate being 10¢ per kilowatt as against 12½¢ per kilowatt, charged from 1906 to 1913 inclusive and estimating that the income from this class of consumers for electric light alone was forty thousand dollars per year which is the minimum. This excessive charge of twenty-five per cent would total something like eighty thousand dollars. In addition the utilities company are now proposing to pay the city three per cent of their gross income and according to their own figures, it will amount to something like six thousand dollars per year. Applying this same proposition to the period of time, 1906 to 1913 inclusive, and make the sum forty-five hundred dollars per year and there is an additional thirty-five thousand dollars due the city.

One hundred and fifteen thousand dollars legally due our city and citizens and any attempt to deal with the utilities company without considering this back indebtedness would be wrong and a violation of the confidence and trust of our fellow citizens. Therefore on a fifteen or twenty year franchise with a readjustment of rates every five years, I would suggest the following proposition.

First. That the utilities company pay to the city thirty-five thousand dollars in cash or its equivalent in electrical construction on our streets and alleys and in our parks as specified and supervised by Commissioner Brennan and an electrical engineer to be employed by the city.

Second. That the city commissioner enter into a contract binding the city not to enter into any litigation to recover his back indebtedness due from the utilities company.

Third. That a franchise be granted the utilities company for street railway, for electric lighting power, etc., with a maximum rate of 10¢ per kilowatt. For gas lighting, heating, etc., with a maximum rate of \$1.10 per 1,000 cubic ft. For a central heating plant.

Fifth. That the utilities company furnish current to light the streets and alleys, Central, Duncan and Nichols park, the city buildings, the public schools and library as compensation for these franchises.

To prove that this proposition is fair both to the city and the utilities company, I wish to state just two facts:

For these franchises the utilities company are now offering the city three per cent of their gross income or in plain figures, about seven thousand or seven thousand five hundred dollars per year.

The utilities company are now hauling coal in wagons from the cars and scooping it into the bukhers. They lay their track with heavy rails from their plant to a switch at Nichols park. Install automatic stokers and reduce the cost of fuel under their boilers thirty per cent. They spent for coal approximately seventeen thousand dollars last year. A saving of \$5100 added to \$7500 would total \$12,600 per year, the same sum the utilities company are now asking for the amount of current mentioned. In addition the saving in handling the by products of the utilities company, such as cinders, tar, ammonia, etc., which can be loaded in cars at their plant

### Mother's Advice To Her Daughter

A Real Live Doll to Fondle Is Woman's Greatest Happiness.

One of the most important matters about which women concern themselves is their future status as a grandmother. And she is wisdom itself who knows of or learns of that famous remedy, Mother's Friend. This is an external application for the abdominal muscles and breasts. It certainly has a wonderful influence, allays all fear, banishes all pain, is a most grateful encouragement to the young, expectant mother, and permits her to go through the period happy in mind, free in body and thus destined to anticipate woman's greatest happiness as nature intended she should.

The action of Mother's Friend makes the muscles free, pliant and responsive to expansion. Thus all strain and tension upon the nerves and ligaments is avoided, and, in place of a period of discomfort and consequent dread, it is a season of calm repose and joyful expectation.

There is no nausea, no morning sickness, no nervous twitching, none of that constant strain known to so many women, hence Mother's Friend is really one of the greatest blessings that could be devised.

This splendid and certain remedy can be had of any druggist at \$1.00 a bottle, and is sure to prove of inestimable value, not only upon the mother, but upon the health and future of the child. Write to Bradfield Regulator Co., 132 Lamar Bldg., Atlanta, Ga., for their book to expectant mothers.

There is a wealth of instruction and comfort to be derived in reading this little book. It is plainly written, just what every woman wants to know, and will be a splendid little textbook for guidance, not only for yourself, but will make you helpful to others. And, in the meantime, do not fail to get a bottle of Mother's Friend at the drug store, and thus fortify yourself against any and all pain and discomfort.

### ERUPTION ON ANKLE GREAT SUFFERING

Many Nights Did Not Sleep. Burned All the Time. Wore Bandage Night and Day. Used Cuticura Soap and Ointment. Now Well.

Kingsville, Mo.—"My trouble began eighteen years ago. Nearly half of the time there were running sores around my ankle; sometimes it would be two years at a time before they were healed. There were many nights I did not sleep because of the great suffering. The sores were deep running ones and so sore that I could not bear for anything to touch them. They would burn all the time and sting like a lot of bees were confined around my ankle. I could not bear to scratch it. It was always so sensitive to the touch. I could not let my clothes touch it. The skin was very red. I made what I called a cap out of white felt, blotting paper and soft white cloth to hold it in shape. This I wore night and day.

"I tried many remedies for most of the eighteen years with no effect. Last summer when my ankle had been sore for over a year and much worse than ever before I sent for some Cuticura Soap and Ointment. It would itch and burn, besides a great hurting that I think tongue could never explain. The very first time I used Cuticura Soap and Ointment I gained relief; they relieved the pain right then. It was three months from the time I commenced using Cuticura Soap and Ointment until the sores were entirely healed. I have not been troubled since." (Signed) Mrs. Charles E. Brooke, Oct. 22, 1912.

Cuticura Soap 25c. and Cuticura Ointment 50c. are sold everywhere. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

### SEEK TO CHANGE SPIRIT IN CHRISTMAS GIVING

SOCIETY IN NEW YORK ADVOCATES MORE INTELLIGENCE IN GIFTS.

Organized First as Aide to Girls Employed in City Stores the Work Contemplated Has Broadened Out—Membership Now Runs Into Thousands—Mrs. Belmont Outlines Purposes.

New York, Nov. 11.—A country-wide appeal for the abolition of the useless Christmas gift and a plea for intelligent and thoughtful giving instead were voiced tonight by Mrs. August Belmont, president of the Spugs, at the opening meeting of the 1913 campaign to be waged by that organization against insincerity, compulsion and waste in Christmas giving.

At this meeting the membership rolls of the Spugs—the Society for the Prevention of Useless Giving—were thrown open to all residents of the United States who might want to enroll against the foolish Christmas gift. Having grown from a handful to more than 5,000 within a few weeks during the last Christmas season, the Spugs have outlined for this year a national campaign and hope to establish societies in all cities and towns throughout the country.

To Stop Compulsory Giving.

Mrs. J. Borden Harriman presided at tonight's meeting. District Attorney Whitman, newly enrolled as a member, and Francis Crowninshield delivered addresses. Mrs. Belmont was the orator of the evening. The original purpose of the society, she said, was to prevent compulsory giving by girls in stores and factories to their employers, the custom of collective giving which the girls felt they could not afford but which they could not avoid without embarrassment and possible loss of their positions. This was one of the chief objects of the society. Another, but not the least, she added, was general cultivation, by all classes of givers, of more thoughtfulness and expression of personality in making Christmas gifts.

"We do not disapprove of collective giving when it is done on the spur of the moment," she said, "or for some particular cause, because then it means that you have collected a sense of human fellowship of which the money collected is but an expression. We do approve of it when it is for the man lower down instead of for the man higher up.

Intelligence in Giving. "Some persons think that we oppose giving. Far from it; we do not oppose giving, but we advocate intelligent giving—giving that is done with the Christmas spirit of good will as distinguished from giving that is compulsory, from fear or with the hope of obtaining reward—whether that reward be the favor of the man higher up or advancement. The world at large should put more of the Christmas spirit into giving. Christmas should be a time for every person to do his or her share.

"Some folks say to us, 'Of course, you want to promote useful giving.' The word useful has many changes of meaning. Usually when one thinks of a useful present, it is a present decidedly middle-class or commonplace. So we do not attempt to promote useful giving in the commonly accepted definition of that word. The thing we are really out to do is to abolish something. We feel that when we have done that

there will follow good sense in giving and that everybody will be profited thereby.

"We propose to decrease the cost of the gift and increase the good will; to make the heart of Father Christmas rejoice by little acts of kindness, unselfishness, by putting thought into the gift we send our dear ones. Give generously; but from your heart, with all your thought. Don't make a business of giving, make it an art. Don't waste what should be a season of goodwill freely given."

### OFF FOR COFFEE ROASTERS' CONVENTION.

New York, Nov. 11.—Two Pullman cars, bearing members of the local branch of the National Coffee Roasters' association, left here today for Cincinnati, where the annual convention of that organization will be held this week. According to Ross W. Weir, president of the local association, a resolution was passed by that body at a recent informal dinner praising the work of President Ach of the national association, and recommending his re-election. One of the leading subjects to be discussed at the coming convention will be the proposed establishment of a bureau of coffee research, at some university of recognized standing. The question of Brazilian coffee propaganda, including the proposal that the state of Paulo shall make an appropriation for advertising coffee in this country, in a fight against substitutes, also will be discussed. A proposal to revise the constitution so as to admit jobbers of green coffee, will come up for consideration.

### ITALY'S KING 44 YEARS OLD.

Rome, Nov. 11.—Throughout the whole of Italy the 44th anniversary of the king's birth was celebrated today by the people who are extremely fond and proud of their small but energetic king. During the morning the foreign diplomats resident in Rome called at the Quirinal and presented congratulatory messages in behalf of the sovereigns and nations they represent. The city was handsomely decorated with flags and bunting and pictures of the king and the other members of the royal family were displayed everywhere. Business was generally suspended and popular demonstrations were held in all larger cities and rural districts. Everywhere the attitude of the people betokened the popularity of the king, which has grown immensely since the war against Turkey.

### HOKE SMITH'S SON TO MARRY.

Atlanta, Ga., Nov. 11.—Guests from Washington and other cities are arriving in Atlanta to attend the wedding of Miss Sarah Brock Rawson, daughter of Mrs. William Clark Rawson, and Marlon Smith, son of United States Senator and Mrs. Hoke Smith. The wedding ceremony will be performed tomorrow evening in Trinity church and will be followed by a large reception at the home of the bride's mother on Peachtree street.

Albert Killam of Markham was a city caller yesterday.

### AUTOMOBILE NOTES

Mr. and Mrs. Norman Campbell of Scott county paid the city a visit yesterday, coming in their McFarlan 6 car.

J. W. Arnold of the east part of the county visited the city yesterday in his White Gas car.

William Cleary residing in the northeast part of the county came to the city yesterday in his Oldsmobile car.

Henry Lippert of Arenzville drove to the city yesterday in his fine McFarlan 6 car.

J. W. Rawlings of the east part of the county exercised his new interstate car in a trip to the city yesterday.

Dr. Allen of Waverly drove to the city yesterday in his Mitchell car.

G. H. McKean of Woodson brought his family to the city yesterday in his Ford car.

Harry Rice of the vicinity of Arhold came to the city with his wife yesterday in his Mitchell runabout.

Ed. Christman of the region of Merritt came to the city yesterday on business in his Case car.

Mr. and Mrs. William Taylor and Mr. Taylor's mother all rode to the city yesterday from Woodson in Mr. Taylor's Ford car.

S. Seabury of Exeter, Scott county, visited the city yesterday in his Ford car.

Attorney J. O. Priest made a trip to Glasgow, Scott county yesterday in his Ford car.

Elmer Walker of Exeter made a trip to the city yesterday in his Ford car.

Melvin Murray of Winchester visited the city yesterday coming in his Ford car.

Robert Coates of Winchester was among the city arrivals yesterday, coming in his Michigan car.

Benjamin Gibbs of Riggs was a traveler to the city yesterday with his family in his Cadillac car.

Walter Bedingfield of Concord spent yesterday in the city bringing his family in his Maxwell car.

Prince Coates of the eastern part of Scott county made a trip to the city yesterday in his Mitchell car.

Mr. and Mrs. Robert T. Cassell and daughter, Mr. and Mrs. Ralph Reynolds and friend went to Neelyville yesterday for a visit with the family of George Coulson, making the trip in a Speedwell car.

Mr. and Mrs. Roy Coultas of Winchester made a journey to the city yesterday in their Ford car.

Burrell Hornbeck and his mother made a trip from Winchester to the city yesterday in their Ford car.

Mr. and Mrs. G. H. Burnester came down to the city yesterday from Arcadia in their Maxwell runabout.

### EXECUTOR'S NOTICE.

Estate of George D. Blackburn, deceased.

The undersigned, having been appointed executor of the last will and testament of George D. Blackburn, late of the county of Morgan and state of Illinois, deceased, hereby give notice that they will appear before the county court of Morgan county, at the court house in Jacksonville, at the January term, at which time all persons having claims against said estate are notified and requested to attend for the purpose of having the same adjusted.

All parties indebted to said estate are requested to make immediate payment to the undersigned.

Dated this 28th day of October, A. D. 1913.

J. Weir, Elliott, Chas. A. Johnson, Executors.

### WARNING.

No persons are allowed hunting or trespassing on my premises. W. H. Phelps, R. R. No. 8.

### RAILROAD NOTES.

Mrs. D. C. Diltz, wife of the Chicago & Alton agent, went to Chicago yesterday with her daughter Marcelle.

At the Car Shops.

The man, Lewis Poeck, who was found dead on the Alton tracks near Woodside, south of Springfield, came here October 26, and was hired by Mr. Doerffler in the boiler shop. At the time he said he was not at all well and Mr. Doerffler offered to let him rest a few days and hold the place for him. The man worked a week, and then said his health wouldn't permit him to work longer and he went to a dairy to work, remaining there three days and leaving mysteriously in the night. He spoke of a wife in Ottumwa, Ia. When found there was a hole in his head and his throat was badly cut but there was little or no blood on his clothes. He probably had little money on his person and the tragedy has a considerable air of mystery.

Foreman Doerffler of the boiler shop has returned from a visit with friends in Springfield.

Richard Dresselhoff of the boiler shop has returned from a visit with friends in Springfield.

The flues are being put into No. 38 and she will be ready for her test next Monday.

No. 24 is getting into shape and her test is now likely to come off Saturday.

No. 31, passenger engine, is in the shops for some repairs that will not take long.

No. 23 is now on a passenger run instead of 31.

No. 45, freight, came in for washing out and general overhauling for minor repairs.

No. 6 has been sent in from Pekin for washing out and looking over for small repairs.

The government district boiler inspector, Charles Reed, paid the shops a visit recently and found things all in proper shape.

The men's wash room for the machine shop is being overhauled, renovated and put in sanitary shape.

No. 68 is moving along toward completion. She is now receiving her warm jacket of asbestos before being covered with Russia iron. The drivers are all ready with their boxing and the tender will soon be adorned with several coats of paint.

Work on the combination car and the caboose is progressing and before long these cars will be sent out looking fine and new.

The round house is almost full of tenders and several will soon be attached to their respective engines.

### SERIOUS CATARRH

### YIELDS TO HYOMEI

Do not let this serious disease extend along the delicate mucous membrane, gradually going from the nose to the throat, thence into the bronchial tubes and downward until the lungs are reached.

There is no other treatment for catarrh that is like Hyomei or just as good. None can take its place, none give such quick, effective and sure relief and at so little cost—furthermore your money will be refunded if you are not benefited. Hyomei, as sold by all druggists, reaches the most remote cells of the air passages, kills the catarrhal germs, soothes and heals the irritated mucous membrane.

Begin its use now—today, and see how quickly the droppings into the throat, the discharges from the nose, sniffing and all other symptoms of catarrh are overcome; and remember—no stomach dragging—you breathe it. The complete outfit containing inhaler and bottle of liquid costs but \$1.00. Extra bottles of liquid, if later needed, 50 cents each.

## BASEBALL MAGNATES MEET IN COLUMBUS

NATIONAL CONVENTION WILL BEGIN ACTUAL WORK TODAY.

Twenty-four Leagues Are Represented at Opening Meeting—Demands of the Players' Fraternity May Be Big Problem of the Convention.

COLUMBUS, O., Nov. 11.—What action will be taken by the convention of the National association of Baseball Leagues on the demands of the players' fraternity, was a matter of conjecture here tonight. Some magnates, who attended the opening session of the convention today were of the opinion that the demands would be referred to a committee if they made their appearance on the floor of the convention, while others expressed the belief that the demands would not be presented.

Twenty-four leagues, out of forty three holding membership in the association were represented at today's meeting. When delegations snow-bound at Cleveland arrive it is thought that thirty baseball organizations will be credited with voting power. The convention will begin actual work tomorrow, over Mr. Cox of Ohio and Governor Hopper of Tennessee were the central figures at the afternoon session. Ohio's executive welcomed the delegates and Tennessee's governor reminded them that Nashville wants the next convention. Chairman Section of the National association presided.

Secretary Farrell's roll-call showed one or more delegates present from the following leagues:

American association, International, Pacific Coast, Western, Southern, association, Texas, Central, New England, New York State, Three Eye, Northwestern, South Atlantic, Virginia, Wisconsin-Illinois, Southern Michigan, Central association, Ohio State, Illinois, Missouri, South Carolina, Michigan State, K. I. T., Nebraska State, New York-New Jersey, and California State.

Session of the national board which has 167 cases to hear was commenced this morning soon after the arrival of Chairman Farrell and it is thought that the docket can be cleared by Thursday night.

### D. A. R. UNVEIL MONUMENT.

Columbia, S. C., Nov. 11.—The main feature of the thirteenth day of the 17th annual conference, the unveiling of the monument to the American Revolution, which convened here today for a four days' session, was the unveiling of the monument to the partisan generals Marion, Sumter and Pickens, which the South Carolina Daughters of the American Revolution had erected on the grounds of the state capitol. The opening session of the conference was held this morning at the Jefferson hotel and in the afternoon all the delegates assembled in the state capitol grounds to attend the unveiling exercises. Special seats were provided on the grandstand for the descendants of the three partisan generals and for the members of the original monument committee who are surviving. The exercises were short but impressive. Yates Snowden, LL. D., professor of history, of the University of South Carolina, delivered an address; then there was singing of patriotic songs by the school children supported by the university chorus and the university glee club. The cords which removed the covering of the monument were pulled by four small descendants of the three generals: Master Calhoun Shiver and Master Rembert, descendants of Gen. Pickens; Master Reid Johnson, who traces his descent back to Gen. Marion, and Master Tisdale, who numbers Gen. Sumter among his ancestors. The monument, which was designed and modeled by Wellington Ruckstuhl, in Paris, consists of a large bronze figure representing Victory, resting upon a massive pedestal of granite. The sculptor of the monument was present at the unveiling ceremonies.

### MAY BUY CEMETERY LOT.

Matt Starr post, G. A. R., is considering the purchase of a plot in Diamond Grove cemetery to be used for soldiers who may die homeless or without means to provide for burial. To this end a committee was appointed at the last meeting of the post, consisting of John A. Schaub, George Faul and L. R. Penfield. They will report and the matter will be decided at the next meeting Friday, Nov. 14.

### SOME OFF-SIDE CHUTES.

Immediately upon landing in California the barnstormers struck pay dirt. Two games at Los Angeles yielded a net profit of \$10,000. The third game—the one at San Diego on Monday—checked up a little stronger than \$5,000 on the profit side of the book. Comiskey's name is a household gem among the native sons, and it is a safe prediction that before the tourists embark from the Golden Gate for the hopping off place in the northwest, the Old Roman will have gathered in the entire expense money for the "gad about the globe."

Joe Farrell, the bard of all the Woodlawn Bards, is on the Comiskey special speeding toward the golden west. When Joe hits the Sox-Giants camp Callahan, Dutch Schaefer and Recruit Daly all will have to duck to cover. With Joe entertaining there will be nothing left for the other comedians except to sit up and attempt to look wise.

Bob Moha has been shut out of the boxing game in Wisconsin until January 1. Bob was so anxious to box that he signed up with two Milwaukee clubs to box on the same night.

New York critics were not favorably impressed with Ritchie's showing against Leach Cross Monday night. He is classed as a second-rater and they claim he in no way measures up to the standard of former lightweight champions exhibiting in Gotham. Many of them are outspoken in their criticism and declare that they can well understand why he persists in side-stepping McFarland.

White Hope Jess Willard is now in the lingo of the game, "a dead one." He has placed himself under the managerial wing of Tom Jones.

Old Rex McDonald, the champion saddle stallion of the world, tired of the show ring and died at Mexico, Mo., on Monday. The proud gladiator was 23 years of age and had been the pet at all of the big horse gatherings in this country and in Europe. The body will be mounted and preserved.

New Orleans boxing fans will witness one of the best contests of the year on Thanksgiving day when Johnny Dundee and Charley White hook up for ten rounds. So willing and evenly matched are they there should not be an idle moment over the entire route.

Ty Cobb has signed his 1914 contract and will continue with Detroit. In a letter to President Navin he says he is satisfied with his berth and that it is his desire to end his baseball days in a Tiger uniform. Navin has let it be known that Cobb's contract calls for the highest salary ever paid to a baseball player.

Scalpers have secured the major portion of the reserved seats for the Copher-Naroon football game at Minneapolis. They are attempting to hold up the public for \$8 to \$10, notwithstanding the law passed at the last session of the Minnesota legislature making ticket scalping a felony. The district attorney will be called upon to investigate the scandal and then prosecute the promoters as well as the scalpers.

The mayor of Steubenville, Ohio, has appointed Tom Needham, Cub backstop, director of public safety. Woe be to joyriders of Steubenville who hit the high places at a faster clip than 25 miles per when old Deerfoot is standing at the home plate—Main street and Ohio avenue.

Following the example of Germany, Austria has sent a delegation to this country to investigate the system of athletics. The delegation is headed by Dr. Otto Herschmann, president of the Austrian Olympic committee. Yankee methods of training the athlete are to be thoroughly investigated with the view in end of developing the latent material of both Austria and Hungary.

The All-American track team sails from San Francisco for the Antipodes today. Among the talent will be Tom Coghle of New Orleans, Reginald Coughy of Oakland, Cal., and James Power, the champion miler, from the Boston Athletic club. The tour will include the principal cities of Australia and will be under the direction of Eustace M. Pelkotto.

Roy Kindred of Alexander was attending to business in the city yesterday.

### CROSS ROADS.

Mrs. Lloyd Magill was a very busy shopper in the city Saturday.

Mrs. L. R. Watson and Mrs. Henry Scott spent Friday evening at the home of Mrs. Lloyd Magill.

The Ladies' Aid dinner was very largely attended at the home of Mr. and Mrs. Trotter last Thursday.

Mr. and Mrs. John Nickle of Nebraska are now visiting their niece, Mrs. Len Watson.

There will be given at Cross Roads school the 21st of November an entertainment and box social. All are invited and especially the ladies, to bring boxes and the gentlemen to buy the boxes. The collection will be toward the library.

Miss Edith Young was given a pleasant surprise Saturday evening, when a number of her friends came in to help her celebrate her 18th birthday. About half past seven a rap was heard and on opening the door she was indeed surprised to see about twenty other friends gathered there. She recovered sufficiently, however, to invite them in and the evening was spent in social conversation and games; in the contest, the prize was won by Earl Hemmings. A delicious two course supper was served and in cutting the birthday cake Miss Lillian Young, sister of Miss Edith, secured the coin. Earl Hemmings, the horse-shoe; Frank Hemmings, the button; Thomas Young, the ring, and Richard Hemmings, the doll. Miss Edith received a number of beautiful gifts. The guests departed at a late hour, wishing her many more happy birthdays.

Miss Annah Hemmings spent Saturday and Sunday with her parents, Mr. and Mrs. J. D. Hemmings.

Missionary meeting was largely attended at Mrs. S. S. Meggison's last Wednesday; and was a good meeting. Refreshments were served early in the evening.

Miss Mable McCurley, of near Murrayville, and Misses Leta and Lucile Meggison spent Sunday with Miss Agnes Taylor.

### FRANKLIN

Miss Minnie Scott of Jacksonville is visiting relatives and friends here. Paul Bates, the Burlington operator, left Tuesday for an extended visit with Nebraska relatives.

Miss Armeada Brown of Jacksonville spent the week end with Miss Lillian Wright.

E. A. Whitlock and family of Murrayville, Miss Minnie Whitlock of Jacksonville, T. C. Hill and family and James Overton of Winchester spent Sunday at the home of Mrs. Sarah Hill.

Miss Ella Teany is visiting her grandparents near Palmyra.

W. E. McDougal land family moved to Greenville last week.

Mrs. Lula Rehnach of Jacksonville came out Friday to attend the reception given by the O. E. S. in honor of Mr. and Mrs. A. H. Wright, who are soon to leave for their California home.

Miss Jessie VanWinkle of Farmerville is visiting with relatives here.

Miss Charlotte Duncan of Harney's clerical force spent Saturday and Sunday with home folks.

C. J. Whitlock and family spent Sunday at the home of his uncle, Douglas Whitlock, near Murrayville.

### TEXAS CLUB WOMEN MEET.

Corpus Christi, Tex., Nov. 11.—First Methodist church was crowded this morning, when the sixteenth annual convention of the Texas Federation of Women's clubs was called to order for its opening session by the federation president, Mrs. Eli Hertzberg. Women's clubs throughout the state were represented by delegates at his gathering, which is better attended and more enthusiastic than any previous conventions of the organization. Among the notable visitors attending the convention are Mrs. Philip N. Moore, past president of the general federation, and Miss Mary A. Gearing, associate professor of home economics at the University of Texas, who will confer with the members of the federation and the various committees on the various phases of home economics and advise them of special work the university is doing and in which the club women of the state are especially interested. The convention will remain in session until Friday and in addition to the general sessions there will be special sessions of the various departments.

## Your Credit is Good

This sounds like an "ad" for a clothing store, but it isn't. However, it concerns a commodity that is just as important to every person in Jacksonville as clothing or any other necessity.

We're talking about GAS and ELECTRICITY.

We don't desire to tell you about the many advantages of gas and electricity, but we do want to tell you how you can have your house piped or wired for gas, or electricity and never feel it.

## Easiest Thing You Know

That's what it is, as observe the following plan:

We will pipe or wire your house RIGHT NOW and allow you twelve months in which to pay for the service. Also, we will do the work at cost price. Phone us at No. Ill. 580; Bell 332 or call and we will be glad to give further details.

**DO IT NOW! PAY LATER**

## Jacksonville Railway & Light Co.

### Notice to Poultry Raisers

We are now manufacturing, under state license, the best brand of chicken food on the market, known as "SUPREME CHICKEN FOOD." This food is far superior to any brand of chicken food on the market today. It is guaranteed under the Pure Food & Drugs Act, June 30, 1906, serial No. 47673. Guaranteed analysis as follows:

CRUDE FAT ..... 6 to 8 per cent.  
PROTEIN ..... 22 to 24 per cent.  
FIBRE ..... 7 to 9 per cent.

#### WHAT IS "SUPREME CHICKEN FOOD?"

It is a combination food consisting of meat scrap, steamed bone grit and a small percentage of clam shell grit; all clean and in a uniform size, and can be fed to large and small fowls. "SUPREME CHICKEN FOOD" is guaranteed to make your hens lay. It is the only ideal food for fall and winter use. Put up in 50 and 100 pound bags. Price per 50 pound bag ..... \$1.50  
Price per 100 pound bag ..... \$3.00

We are also manufacturing, under state license, the best brand of hog food on the market, known as "SURE FATTEN HOG FOOD." It is far superior to any brand of hog food on the market today. It is guaranteed under the Pure Food and Drugs Act, June 30th, 1906, Serial No. 47673. Guaranteed analysis as follows:

CRUDE FAT ..... 10 to 14 per cent.  
CRUDE PROTEIN ..... 52.50 to 60 per cent.  
CRUDE FIBRE ..... 1 to 3 per cent.  
PHOSPHATE ..... 10 to 12 per cent.

#### WHAT IS "SURE FATTEN HOG FOOD TANKAGE?"

It is a dark colored granular meal, made from meat residues, and it supplies the protein and phosphates necessary for compounding a balanced ration in most economical and palatable form.

It contains phosphates in proper proportion to insure strength of bone and frame work. In the corn belt bone development is a matter of serious consideration.

It is not a substitute for corn, but a small quantity fed in connection with corn or other grains gives a balanced ration.

It is the most economical source of digestible protein known, containing twice as much protein as oil-meal and five times as much as middlings, shorts, shipstuf, or alfalfa meal.

TANKAGE is recommended by all leading experiment stations. It is packed in one-hundred-pound burlap sacks, plainly marked "SURE FATTEN HOG FOOD." Analysis as above. It is the ideal feed to balance rations.

#### WHAT "SURE FATTEN HOG FOOD" TANKAGE DOES.

It develops bone and muscle in young pigs and makes them grow. It matures a hog for market in two and three months quicker than corn alone, thereby saving one-third of the feed bill, one-third of the labor, one-third of the risk, increasing profits one-third.

It grows better proportioned hogs, more meat, and more fat, hence market-topper hogs. "SURE FATTEN HOG FOOD" Tankage fed hogs ship well with small shrink. While in no way a medicine, it so fortifies and strengthens the system against attacks of disease germs that "SURE FATTEN HOG FOOD" Tankage fed hogs are universally healthy. Manufactured by the

## MARKET LETTERS.

**Kansas City Market.**  
Kansas City Stock Marts, Nov. 11.—The movement of this cattle to the country last week was 28,000 head, a few thousand less than usual in the last two months, and prices were lower on most of these, and about the most reasonable from the buyer's standpoint that have been paid any week this fall. December is usually the low winter month on stock cattle and feeders, both as regards cost price figures, and advantageous feeding condition of cattle, but the apparent progress of the market toward this low period was arrested today when the receipts were dropped off one fourth from recent Mondays, to 15,000 head. Sellers immediately elevated asking prices, and enough buyers responded to make a clearing, though some men held back because of the unsatisfactory way finished cattle are selling. It is not likely there will be any substantial rise in prices of stock grades at this time, for the reason that buyers display a minimum enthusiasm as the holidays approach, though the usual January rise may be expected. Good to choice Colorado yearlings and two are still coming, and may be had at \$6.75 to \$7.25, panhandles at the same price, panhandle stock calves at \$7.25 to \$8.35. Some heavy feeders sold at \$7.80 today, considered about 25 cents higher than similar cattle brought first of last week. Purchases of plan western horned feeders, weighing 1100 pounds, made here last week at \$6.55, and some 900 pound steers of the same lineage at \$6.35, were regarded as bargains. Feeders are trying many variations of the feeding game this year, in efforts to secure best results. Mr. Clark Baldwin of White Hall, Ill., bought light weight stockers here last week and said in an interview respecting his purchase: "This time I have switched off and taken the light weight kind instead of the heavier ones. Our land is high class and high priced, but by farming right, feeding up what grain we raise, and putting back what we take out of the soil, we manage to make it pay."  
J. A. Rickard,  
Market Correspondent.

**Chicago Live Stock.**  
Oliver S. Green with Walter Bros., U. S. Yard, Chicago, reports the estimates for Monday, Nov. 10th:  
Cattle—20,000.  
Hogs—30,000.  
Sheep—32,000.  
Cold weather and a moderate run of cattle was beneficial to the selling interest of the trade. The market was strong and higher all along the line for beef cattle. Bulk of sales were made at an advance of 10 to 15 cents and some of the fairly good weight cattle that got caught in the biggest slump last week were taken at 15c or more rise. The range run was 2,500 and they sold at a good advance. Best Canadians, 8c.  
No native yearlings to class up with \$9.85 ones last week and best offered weighed 1013 pounds, at \$9.60, Prime 1375 pound stuff \$9.50, with some of more weight \$9.25 to \$9.40. Good to choice handy and light weights ranged \$8.50 to \$8.90, while the medium to good stuff largely \$8.10 to \$8.50. Decent light killers \$7.50 to \$7.80, with common and rough light natives down to 7c and below.  
God rangers, \$7.65 to \$7.85.  
With others, \$7.15 to \$7.50.  
Feeder stuff \$6.75 and under.  
Butcher stock met with a good call and active at an advance of 15 to 25c. Canners 10 to 15c better. Calves 25c lower. Feeders and stock steers 10 to 15c iger. Bulls show more strength.  
Beef steers:  
Choice steers, 1300 to 1700 pounds, \$9.00 to \$9.25.  
Prime steers, 1200 to 1400 pounds, \$9.25 to \$9.50.  
Choice steers, 1100 to 1700 pounds, \$8.75 to \$9.25.  
Good to prime yearlings, \$9.00 to \$9.60.  
Medium to good yearlings, \$8.50.  
Common to fair yearlings, \$7.75 to \$8.50.  
Good steers, 1000 to 1200 pounds, \$8.35 to \$8.85.  
Good steers, 1000 to 1200 pounds, \$8.00 to \$8.60.  
Medium steers, 800 to 900 pounds, \$7.25 to \$7.50.  
Fair steers, 900 to 1200 pounds, \$7.50 to \$8.00.  
Fat cows, \$4.80 to \$5.25.  
Heifers, \$5.25 to \$8.50.  
Bulls, \$5.25 to \$7.50.  
Canners and cutters, \$3.25 to \$4.75.  
Common heavy calves to good vealers, \$5.25 to \$10.75.  
Choice to fancy yearlings, \$11.00 to \$11.25.  
Inferior stockers to good feeders, \$5.00 to \$7.10.  
Selected feeders, \$7.25 to \$7.40.  
Selected feeders, loudsnope.  
Choice selected feeders, \$7.50 to \$7.65.  
The light supply of hogs boosted prices 10 to 20c and best go at \$8.25 and some 20 car loads up to \$8.25.  
Selected packing and shipping, \$7.80 to \$8.25.  
Rough heavy packing, \$7.25 to \$7.45.  
Mixed, \$7.60 to \$7.95.  
Mediums and butchers, \$8.00 to \$8.15.  
Poor to good heavy packing, \$7.55 to \$7.85.  
Light weights, \$7.65 to \$8.00.  
Pigs and throw-outs, \$1.00 to \$8.25.  
The sheep and lamb market was very active. Aged sheep 10 to 15c higher. Yearlings and lambs, 15 to 25c higher.  
Prime lambs reached \$7.95.  
Prime yearlings, \$6.75.  
Native ewes, \$3.00 to \$4.75.  
Native wethers, \$5.00 to \$5.50.  
Fed western yearlings, \$6.00 to \$6.75.  
Native lambs, \$5.00 to \$7.95.  
Western lambs, \$5.50 to \$7.85.

John Sheets of Naples was transacting business in the city yesterday.

## ARENZVILLE.

Mrs. John Irving and granddaughter, Helen Thompson, were shoppers in Jacksonville one day last week.  
William Deterding of Concord was here last week preparing to do home hauling for the bungalow to be erected at Hopewell.  
Mrs. E. Taylor of west of town died Saturday morning at 3 o'clock after brief suffering. She was 70 years old.  
Frank Dober has returned to his home in Chicago after a brief visit here.  
Mrs. Adelia Warner of Springfield returned to her home after a few days' visit here with Mrs. Frances Dober.  
S. Heitz and wife returned to their home in Cerro Gorda.  
Peter Hinners autoed here last week one day from Meredosia and visited his sister, Mrs. Henry Zahn.  
Ed Houston and family motored to Concord Sunday.  
Mrs. Henry Dahman returned from the hospital at Jacksonville last week.  
Mrs. H. F. Kloker and daughter, Pauline, spent the week end with Mrs. Ed Wood.  
Mrs. Herman Adelman of Meredosia spent a few days with relatives and friends here.  
Raymond Rehnie of Joy Prairie was a recent visitor with relatives here.  
The Lend a Hand society was most graciously entertained at the home of Arthur Woods Friday, east of town.  
Mrs. Jessie Morrison of Hopewell is caring for her mother, Mrs. John Rahn, who has been confined to her bed with pneumonia. At this writing she is convalescing. Her many friends hope to see her among them again soon.  
Mrs. Ada Saylor spent Tuesday very pleasantly with her sister, Mrs. Will Green.  
Mrs. Al Camp and child have returned to their home in Ashland, after visiting her parents.  
Mrs. Seth Crampton and children went to Pawnee to visit her sister, Mrs. C. W. Yeck, before departing for her home in Waitts, Oklahoma.  
Ed Houston drove to Chapin Sunday morning and was accompanied by Al Wood, who took the train for Missouri, where he expects to purchase a farm.  
Mrs. George Rahn went to her home in Virginia after a brief visit here.  
Bert Long and wife of Markham were entertained by William Menge Saturday, north of town.  
Miss Louise Zulauf of Hagener was a guest of Miss E. H. Cize several days last week.  
C. E. Williamson of Jacksonville was a business caller here last week.  
Mr. and Mrs. Earn Sanders of Concord were callers here one day last week.  
Misses Emma and Tillie Kunzman returned to Decatur Wednesday.  
Robert Craig of east of town passed by, accompanied by his nephew, Noah Craig, of Atwater, Kas.  
Mrs. May Hembrough and Miss Sadie Kloker were in Jacksonville Friday to visit Mrs. Viola Kloker at the hospital.  
Mr. and Mrs. C. V. Long returned to their home in Denver, Colo., Tuesday.  
Mrs. J. S. Bates departed for Tulsa, Oklahoma, for a visit with her sister, Mrs. Tony Eaton.  
Miss Elizabeth eBard returned from a visit with Miss Effie Bennett at Meredosia.  
Mrs. Fredericka Holle of Quincy is visiting her daughter here.  
Mrs. Jane Tribert is the guest of her sister, Mrs. Will Sale, of Vermont.

**10 CENT "CASCARETS"**  
IS YOUR LAXATIVE  
Best Liver and Bowel Cleanser and Stomach Regulator in the World—Work While You Sleep.

Get a 10-cent box.  
Put aside—just once—the Salts, Pills, Castor Oil or Purgative Waters which merely force a passageway through the bowels, but do not thoroughly cleanse, freshen and purify these drainage organs and have no effect whatever upon the liver and stomach.  
Keep your "insides" pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.  
A Cascaret to-night will make you feel great by morning. They work while you sleep—never gripe, sicken and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have headache, biliousness, Coated Tongue, Indigestion, Sour Stomach or Constipated Bowels. Cascarets belong in every household. Children just love to take them—Adv.

## SEVENTY FIVE YEARS AGO FIRST ILLINOIS ROAD WAS BEGUN

Mr. Ensley Moore Tells How Jack-  
sonville Started the First Loco-  
motive in the Great West—The Beginning of a Mighty  
System.

Oliver Evans of the state of Dela-  
ware, the beginner of railway pas-  
senger service in the United States,  
predicted in 1813 that the day would  
come when people would travel in  
what he called stages—from which  
comes our modern reference to cars  
as coaches—from one city to another,  
almost as fast as birds fly, fifteen  
or twenty miles an hour.

Soon thereafter railroads were built  
and operated by steam in the eastern  
states of this country, but the then  
unlimited west knew no faster means  
of travel than steamboats on the  
lakes and rivers; the Ohio and the  
Mississippi rivers were first plowed  
by the vessel propelled by steam and  
later the great lakes were utilized in  
bringing people and goods into the  
far west.

It was in the south, from Balti-  
more, and in South Carolina, that  
the first American railroads ran, not  
in the north, as many may suppose.

So the far west of those days was  
among the first to start a steam rail-  
way north of the Ohio river. This  
was done in Illinois, and in the sec-  
tion of the state which was then set-  
tled most thickly, the southern part.

The legislature of Illinois passed  
an act, approved and in force Feb.  
5, 1835, the first section of which  
read as follows:  
"Be it enacted by the people of the  
state of Illinois, represented in the  
general assembly, that Thos. T. Jan-  
uary, Matthew Stacy, Newton For-  
sythe, Alexander Brother, Porter  
Clay, A. H. Buckner, J. P. Wilkinson,  
Joseph Duncan and Ira Davenport,  
and all such persons as shall become  
stockholders, agreeably to the pro-  
visions of this act, shall be, and they  
are hereby constituted a body corpo-  
rate, by the name of the 'Jackson-  
ville and Meredosia Railroad Com-  
pany,' and shall continue for the term  
of fifty years from and after the  
passage of this act."

Section third of this act provided  
that work must be commenced on the  
railway within four years of the  
passage of the act.

After reciting various provisions,  
which sound queer in these days, the  
eighteenth section closes the act in  
the following words:

"It shall be lawful for said com-  
pany at any time, when to them it  
shall seem proper, to construct, erect  
and maintain a lateral railroad or  
trackway, to such point in the town  
of Naples, as said directors shall se-  
lect, and in the erection, construc-  
tion, maintenance, and management  
of which, they shall be subject to the  
same restriction and use and en-  
joy the same privileges as are pro-  
vided for in the foregoing sections of  
this act."

It is doubtful whether anything  
further was done under this act ex-  
cept to secure its passage.

It may be stated that Meredosia is  
about 24 miles a little northwest  
of Jacksonville, while Naples is  
twenty-two miles distant, nearer  
west.

The legislature passed an act, in  
force Feb. 27, 1837, to establish a  
general system of internal improve-  
ments. This was done at a time  
when the country was wild for com-  
mon roads, canals and railroads, and  
initiated a system which plunged the  
state into the depths of a public  
debt which it was not free from un-  
til Gov. Cullom's administration,  
about 1880. Many other states went  
to the same length, and some repudi-  
ated their obligations. But be it al-  
ways remembered that Illinois paid  
up in full.

In this act of Feb. 27, 1837, the  
state was gridironed and decorated  
with authority for improvements,  
and section 9 provided for: "The  
Northern Cross railroad from Quincy,  
on the Mississippi river, via Colum-  
bus and Clayton, in Adams county,  
Mt. Sterling in Schuyler (now  
Brown) county, Meredosia and Jack-  
sonville in Morgan county, Spring-  
field in Sangamon county, Decatur  
in Macon county, Sidney in Cham-  
paign county, and Danville in Ver-  
million county, and thence to the  
state line in the direction of LaFa-  
yette in Indiana, which railroad shall  
cross the Sangamon river at some  
eligible point below the north and  
south forks thereof, for the construc-  
tion and completion of which said  
railroad and appendages, the sum of  
one million, eight hundred and fifty  
thousand dollars is hereby appropri-  
ated exclusive of the necessary sum  
for constructing a bridge over the  
Illinois river, to be appropriated  
whenever said bridge may be author-  
ized by the legislature."

Under this act probably the only  
undertaking of lasting value that  
was completed was that part of the  
Northern Cross road, then built from  
Meredosia, on the Illinois river, to  
Jacksonville, and later to Springfield  
(in 1842).

The internal improvement act pro-  
vided for various districts in the  
state, where the improvements were  
to be supervised by duly selected  
commissioners.

Gen. Murray McConnell, of Jack-  
sonville, a man of recognized energy  
and ability, was entrusted with the  
supervision of the work in his dis-  
trict. Jas. M. Bucklin was chief  
engineer, and M. A. Chinn his assist-  
ant, says Moses in his history of  
Illinois. I feel pretty well satisfied  
that Geo. P. Plant, afterwards a  
prominent and honorable citizen of  
St. Louis, was engineer of the Jack-  
sonville section. Chinn began the  
survey and location of that portion  
of the road between Jacksonville and  
Meredosia, May 11, 1837, and the  
contract for the work of construc-  
tion was let July 10, 1838. The con-  
tractors for the first division, be-  
tween Jacksonville and Springfield,  
were the same, namely: Myron Les-  
lie, Jas. Dunlap, Thos. T. January,  
and Chas. Collier. The price agreed  
to be paid was \$8,430 per mile. The  
track was laid after a fashion, which  
would astonish modern engineers.  
First, pieces of timber, called mud-

sills (of red cedar) were put down.  
On the top of these were placed cross  
ties, over which ran wooden rails, to  
whose surface were strapped flat  
iron bars. The bars were two and  
a half inches wide, five-eighths of an  
inch thick, and weighed thirteen  
pounds to the yard. The first rail  
was placed in position on May 9,  
1838. The first locomotive, bought  
in Europe and anxiously expected,  
according to the report of the com-  
missioner, Wm. Kinney—"never ar-  
rived in the state, but, as the  
board was informed, was lost in its  
passage. "However, the engine, pur-  
chased by the board for the Bloom-  
ington-Mackinaw Road, which fortu-  
nately, did arrive, was turned over  
for use on the Northern Cross line,  
by which it was utilized. It was  
manufactured by Rogers, Grosvenor  
and Ketcham of Newark, N. J., and  
was called the "Rogers"—presum-  
ably after the senior partner of that  
firm.

It is fair now to return to the work  
begun at the initial point on the  
railroad, Meredosia. There ground  
was broken in 1837, with great cere-  
mony and in the presence "of a vast  
concourse of citizens." Speeches  
were made by J. E. Waldo and Dr.  
Owen M. Long (afterwards surgeon  
in the war and consul to Panama).  
Daniel Waldo was selected to dig  
the first shovelful of dirt, which he  
did amidst the shouts "of the multi-  
tude."

The first engine was put on in Oc-  
tober, 1838, set up, and on the 8th  
of November, 1838, just seventy-five  
years ago, the first puff of a loco-  
motive was heard in the great Missis-  
sippi valley, north of the Ohio river!  
And the first turn of a locomotive  
wheel was made, and the first train  
ran about eight miles over the new  
railway, to a point a little east of  
where Bluffs is now located, on the  
Wabash railway of today. The train  
of one engine and one car carried  
Daniel Waldo, Joseph C. Thompson,  
Calvin Goudy (the last two of whom  
were uncles of the writer) Engineer  
Joseph Field and Joseph Higgins.  
Gov. Joseph Duncan of Jacksonville,  
was also a passenger, and doubtless  
there were others whose names have  
been forgotten.

Thus in the little towns of Jack-  
sonville and Meredosia was begun  
the mightiest system of travel, of

transportation, of development and  
of expansive civilization ever heard  
of in this land. Thos. H. Benton, in  
one of his great and prophetic  
speeches turned to the west, and  
pointing in that direction, said:  
"There! There, is India!" but "Old  
Billion" little knew of the mighty  
turn made by the wheels of the loco-  
motive at Meredosia, and its part in  
bringing India and China, and "The  
isles of the sea" into closest trade  
and sympathetic relations with the  
American republic.

November eighth, eighteen hundred  
and thirty-eight!  
Time's greatest date in material  
progress and in commercial and edu-  
cational development since the dis-  
covery of America!

The system of travel and transpor-  
tation started at that time—aside  
from the other railways of which it  
was the pioneer—was now the great  
line called the Wabash, extending in-  
to six of the greatest and richest  
states in the Federal Union.

It may not be amiss to say that,  
in 1839, when the Northern Cross  
railroad was opened into Jack-  
sonville, there was an excursion given  
to Meredosia. There are at least  
two persons now living in Jack-  
sonville—Mrs. Robt. T. Osborne and  
Miss Harriet Melindy—who went up  
on that excursion.

Ensley Moore.

## HEAD AND NOSTRILS STUFFED FROM COLD

"Pape's Cold Compound" Ends Colds  
and Grippe in Few Hours—Tastes  
Nice—Acts Gently.

Your cold will break and all grippe  
misery and after taking a dose of  
"Pape's Cold Compound" every two  
hours until three doses are taken.  
It promptly opens clogged-up nos-  
trils and air passages in the head  
stops nasty discharge or nose run-  
ning, relieves sick headache, dull-  
ness, feverishness, sore throat, sneez-  
ing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing  
and snuffling! Ease your throbbing  
head—nothing else in the world gives  
such prompt relief as "Pape's Cold  
Compound," which costs only 25  
cents at any drug store. It acts  
without assistance, tastes nice, and  
causes no inconvenience. Accept no  
substitute.

prevents Pneumonia).  
At your druggist's, in 25c and 50c  
jars, and a special large hospital size  
for \$2.50.

Accept no substitute. If your druggist  
cannot supply you, send 25c or  
50c to the MUSTEROLE Company,  
Cleveland, Ohio, and we will mail  
you a jar, postage prepaid.

Prof. J. C. Budlong,  
South Lynne, Conn.,  
says: "Your truly  
good remedy, Muster-  
ole, has saved my life.  
I was troubled for  
years with Asthma,  
Pleurisy, and allied  
troubles. I could gain  
no relief whatever. I used but a  
small amount of your truly remark-  
able remedy, and today I am a  
thoroughly well man in consequence.  
It is a Godsend to poor, suffering  
humanity. Refer to me. All letters  
gladly answered."

## Rub MUSTEROLE on That Sore, Tight Chest!

Try this clean, white, soothing  
ointment. See how quickly it brings  
relief.

MUSTEROLE does  
all that the old-fash-  
ioned mustard plaster  
used in the days of our  
grandmothers, but it  
does it without the  
blister!

Doctors and nurses  
frankly recommend  
MUSTEROLE for Sore Throat, Bron-  
chitis, Croup, Stiff Neck, Asthma,  
Neuralgia, Congestion, Pleurisy,  
Rheumatism, Lumbago, Pains and  
Aches of the Back or Joints, Sprains,  
Sore Muscles, Bruises, Chills, and  
Frosted Feet—Colds of the Chest (it

## Is \$10 to \$20 Saved on Fuel Bills Worth While to You?

If it is, we want you to come and see us, and we will show you a base burn-  
er that will not only save you dollars in fuel bills, but will also give you  
continuous heat day and night---upstairs and down---all winter long.

There are many rea-  
sons why the FAVORITE  
BASE BURNER is the best  
and most economical heating  
stove in existence. In its  
wonderful system of warm-  
air flues you will find one  
reason why it maintains an  
even temperature throughout  
the entire house on the coldest  
days of winter, regardless  
of whistling winds and driving  
blizzards outside.

In its "paper-tight" con-  
struction---for the Favorite is  
accurately and tightly fitted by  
special patented machinery---  
is found the explanation why  
it will hold fire unattended for

five successive days and nights without going out, always pouring forth an unvarying  
amount of pure, warm air from a steady fire. Flowers and delicate plants thrive in the  
fresh, healthful atmosphere supplied by a FAVORITE BASE BURNER; it is the best  
method of heating for fragile women and children.

If you want your family to be warm, healthy and happy during the cold months you  
cannot afford to buy any heating stove but a Favorite. It will keep Florida atmos-  
phere in your house all winter long. It will give your wife a cozy and comfortable  
home in which to live. It will furnish your children with warm bedrooms in which  
to undress and go to bed.

Buying a Favorite Base Burner is like putting money in the bank, because it saves  
its own cost in a few years use, and brings such luxury and happiness into the home.

Hand Made Stove Pipe Elbows, Stove Boards, Oil Cloth Rugs,  
Linoleum Pipe Dampers, Pokers, Shovels, Etc., in Endless Variety.

## YOU WANT SERVICE

As well as style in your suit or overcoat—garments that will look  
as well after a season's wear as they did when new.

By keeping our customers' garments pressed free we get them  
in our shop often and see to it that they hold up and wear well.

You'll agree with us that between \$20 and \$30 is the logical  
price to pay. A higher price is unnecessary. Most men have  
already come to realize this. Never before has the demand for  
Popular Price Tailoring been so great. Never has our stock been  
so complete, so varied, so attractive.

See the new grays, browns, pin and chalk stripes; also our com-  
plete line of blue serges and chevots.

Our \$20 chinchilla overcoats can't be beat. They are thick and  
warm, but light in weight. You can have them made long or  
short just as you want them

## WORLD'S LATEST FINANCIAL AND MARKET NEWS

### MOVEMENT OF STOCK QUOTATIONS IS UPWARD

#### UPWARD MOVEMENT ON STOCK EXCHANGE IS ABRUPT.

Both Railroad and Industrial Shares  
Advance Strongly—Swift Reaction  
in Last Hour Cancels Large Part  
of the Day's Gains—Buying for  
Foreign Account Helped in the  
Upward Swing.

(By Associated Press)  
New York, Nov. 11.—Quotations  
moved upward on the stock exchange  
today as abruptly as they declined  
yesterday. There was no sign of  
the liquidation which was the most  
disquieting feature of the preceding  
session both railroad and industrial  
shares advanced strongly. Higher  
prices were well maintained until  
the last hour when a swift reaction  
canceled a large part of the day's  
gains. It was felt that fears of an  
immediate crisis in the country's re-  
lations with Mexico had been ex-  
aggerated in the street and the more  
cheerful view of the situation was a  
factor in today's upturn. Buying  
for foreign account helped in the  
upward swing.

Bear traders sought to make cap-  
ital of the arbitration board's award  
of an increase in wages of conduct-  
ors and trainmen on the eastern  
roads. The decision, however, was  
of comparatively small significance  
in the eyes of speculators for the  
reason that they had expected some  
such compromise would be made. It  
was contended also that the decision  
would arm the railroads with an-  
other argument in favor of increased  
freight rates.

MURRAYVILLE.

Frank Carman took the third degree in the I. O. O. F. lodge here last Monday evening. After lodge they gave a banquet to their wives and Rebekahs. Seventy-five plates were served and Rev. C. S. McCollum gave an interesting address. A very pleasant evening was spent by all.

Henry Cornwell of Chillicothe, Mo., spent a few days last week with John Boruff and family. Mr. Cornwell and Mrs. Boruff were comrades in the cruel war and had not seen each other since that time.

David Stansfield of Jacksonville was a business visitor here Tuesday.

Mrs. W. B. Wright returned home Thursday from an extended visit with relatives in North Dakota.

Miss Malinda McCarty is very sick with typhoid fever. Miss Maye Richards is caring for her.

Troy Smock and wife moved Tuesday back to C. F. Strang's place, which they had recently left.

Mrs. Bessie James and daughter, Helen, spent Saturday and Sunday with friends in St. Louis.

Class 14 of the M. E. Sunday school gave a "crazy tea" in the church basement Friday evening. About 60 were present. Games and music furnished the entertainment and refreshments were served.

A mistake was made last week regarding the Christmas bazaar of the Ladies' Aid of the M. E. church. It will be held Saturday afternoon and evening, Dec. 13th, in the church basement.

Those on the sick list this week are Misses Nelle Rimbey, Maude Blakeman and Edna Osborne.

H. B. Rimbey and Hadley Smith are running a saw mill near Carlinville since last Tuesday. They expect to be gone about three weeks.

Fred Thompson and wife of St. Louis were guests of the former's aunt, Mrs. A. J. Johnson, and family from Tuesday until Thursday.

Mrs. Hattie M. Naulty of near Jacksonville spent last Tuesday with her aunt, Mrs. C. T. Daniel.

Misses Maye Richards and Beulah Hart spent Wednesday night with the former's aunt, Mrs. Mary A. Gunn. They went to Roodhouse Thursday to attend the funeral of Dr. Higbee.

Mrs. Julia A. Dawson of Chicago and Mrs. Lydia Jolly of Leam were guests last week of Mrs. C. T. Daniel.

Among those who attended the missionary convention at Jacksonville last Thursday and Friday were Mesdames H. E. Millon, A. H. Kennedy, C. S. McCollum, Wm. Still, Josephine Spencer, Mary E. Crouse, J. A. Carlson, Mary A. Gunn and Hattie B. Daniel.

Covie Thurston and family of near Jacksonville spent Saturday and Sunday with Reason Daniel and family.

Miss Fawnie Wilson enjoyed a visit Saturday evening from Miss Irene Oxley of Clements. Miss Fawnie returned home with her to spend Sunday.

Dr. Elder and wife and Ora Ralston and wife of Franklin came over Sunday in the doctor's car; the former to visit his brother and family and the latter visited Reece Jones and family.

Allen Conlee of Jacksonville was a business caller here Saturday.

J. E. Thompson and family enjoyed a visit the fore part of the week from his father, David Thompson, and sister, Mrs. Sarah Conlee, of near Roodhouse.

George Jones happened to quite a painful accident Saturday while loading freight at the C. & A. station, breaking the bones in one finger, which rendered him unable for service as drayman for several days.

ASBURY.

Mrs. James Stout and daughter, Miss Zella, Mrs. Robert Reid, Mrs. Edgar Stout, Mrs. T. B. Orear, Mrs. Charles Hopper, Mrs. Whitmore, Mrs. W. W. Theobald and Fletcher Hopper of Jacksonville, Mr. and Mrs. Robert Richardson, Mrs. Bromley, Mrs. William Richardson and Mrs. Ralph Goltra of Stafford, Kan., Mrs. J. T. White and Mrs. S. S. Megginson of Woodson, Mr. and Mrs. A. B. Green, Mr. and Mrs. William Morris, Mrs. George Newman, Sr., Mrs. W. T. Craig, Mrs. George Newman, Sr., Mrs. L. R. Watson, Mrs. J. H. Helliwell, Misses Nina Richards and Grace Hembrough and Messrs. Carl Hembrough, Edwin Hembrough, W. E. Barrow, Raymond Morris, J. D. Hembrough and Albert Hembrough were guests who attended the Ladies' Aid society dinner at the home of Mr. and Mrs. Harry Trotter last Thursday.

Mrs. Fannie McKean returned to her home in Woodson after a pleasant visit with her son, George McKean, and family.

Mr. and Mrs. W. E. Barrow, Mrs. William Richardson and Mrs. Bromley were Sunday guests at the home of Mr. and Mrs. William Mortimer.

James Winter and daughter, Miss Emma, of Nebraska, Mrs. Parker of Jacksonville, and Mr. and Mrs. Joseph Megginson of Woodson were visitors at the home of R. W. Megginson and family Wednesday.

Mr. and Mrs. Fletcher Patterson of Winchester spent Sunday with Mr. and Mrs. Frank Hembrough.

George Megginson visited friends in Chapin Sunday.

Miss Grace Hembrough, a senior in the Jacksonville high school, spent Saturday and Sunday with her parents, Mr. and Mrs. J. R. Hembrough.

DELICATE CHILD

Made Strong and Healthy by Vinol

Growing children play hard and work hard at school, which with rapid growth uses up an enormous amount of energy and vitality, that must be replaced.

When a child is tired all the time, no appetite, weak, delicate and sickly we guarantee Vinol, our delicious cod liver and iron tonic, will build them up, create a hearty appetite, sound fresh and muscle tissue, pure healthy blood and make them strong.

Mrs. L. L. Bertrand, New Liberia, La., says: "My little one was weak and run-down in health, and was continually taking cold. Different medicines failed to help, but when Vinol was recommended I found it a wonderful help to my child. It broke up the cold, and quickly restored health and strength. Vinol is a most excellent tonic for children."

If Vinol fails to do what we say, we will give back your money. Lee P. Allcott, druggist, Jacksonville, Ill.

P. S. For any skin trouble try our Saxo Sive. We guarantee it.

YATESVILLE.

The fish and corn bread supper at Berea Saturday night was well attended.

Mrs. C. O. Brubeck and children of Beardstown visited relatives here over Sunday.

Miss Emma Latham, who was injured last Wednesday in a runaway accident, is doing nicely at this writing.

Miss Ollie Stewart was the guest of Miss Wilma Emerick Sunday.

Mrs. E. C. Bangman and little son, Claude, of Sinclair visited Frankie McDaniel last Tuesday.

Luther Latham of Springfield visited his parents, Mr. and Mrs. S. C. Latham, Sunday.

F. G. Simms of Jacksonville was out to his farm here Friday.

Some of our farmers have finished husking corn.

Mrs. K. Green was shopping in Jacksonville Monday.

WILL MOVE TO MOLINE.

James DeFreitas of rural route No. 6 will leave Thursday for Moline, Ill. He expects to make that place his home and will ship his household goods soon.

American Lady Corsets

Produce that willow grace which fashion demands—you do not know the possibility of your figure if you have never worn one.

**HARMON'S**

Dry Goods Store

EXECUTOR'S SALE.

I will sell at public sale at the south door of the court house, Jacksonville, Ill., at 2 o'clock p. m. Saturday November 22nd, the following real estate situated in the county of Morgan and state of Illinois: 260 acres of land in sections 29 and 32, township, 14; range, 9, with good house, smoke house, barn, granary, tool sheds and chicken house. One of the best tiled farms in the county, situated at Durbin church, 1 mile from Clement station, on C. & A. cut-off, 3 miles south of Pisgah and 4 miles west of Franklin.

Also 2, 8 room modern houses,

hot water heat, laundry in basement with hot and cold water tubs and laundry stoves, known as numbers 1052 and 1054 W. Lafayette avenue, Jacksonville, Ill., and lots 72½ by 143 feet, and house No. 816 West North street, 8 rooms and cellar, well, cistern, barn and buggy house, granary, paint house, 3 coal houses and work shop. Possession given at once.

Wm. Oxley, tenant will show prospective buyers the farm.

Terms of sale: One third of purchase money cash on day of sale, balance in one and two years, with 6 percent with privilege of paying all

on delivery of deed. Immediate possession. Jerry Cox, auctioneer and C. B. Lewis, executor.

PRIVATE SALE.

During the next two weeks, the undersigned, as executors of the estate of George D. Blackburn, will offer for sale, at his late home, 3½ miles north of Jacksonville, all of the chattel property of said estate including horses, cows, hogs, hay, grain and farming implements.

J. Weir Elliott, Charles A. Johnson, Executors.

SINCLAIR.

Mrs. E. T. Fox erected a monument to the grave of the late E. T. Fox recently.

Miss Eleanor Thompson of the college visited the cemetery and had some work done one day last week.

Mrs. Newton Meas sold Mrs. John Lockhart some Rhode Island Red cockerels Saturday.

Henry Means from Jerseyville was

in these parts attending to business matters Friday.

Frank Hines has purchased a new piano for his children.

Mrs. Carl Bourn visited your scribe Saturday and brought her little pet dog, midget, with her.

BURNING LEAVES.

Now is the time for burning leaves. There is an ordinance against burning them on brick pavement but it is not rigidly enforced. Of one thing people should be careful and that is not to burn their leaves against limestone curbing as is too frequently done.

# Piano Buyers Are Turning Out Like Swarms of Busy Bees

The bees get busy when springtime comes. It's their harvest days. These are your harvest days for piano buying. Prices are cut to a frazzle. You cannot afford to put off buying now.

## GO STRAIGHT TO THE J. BART JOHNSON MUSIC STORE

Terms are made easy to responsible buyers. Ten dollars cash down will take a piano to your home. It will pay you handsomely to drive miles to attend this sale event. Every piano to be sold.

Kimball Player-Pianos, Kimball Pianos,

Angelus Player-Pianos, J. Bart Johnson Pianos, Whitney Pianos, Smith & Barnes Pianos, Hoffman Pianos, etc.

Every Piano Absolutely Guaranteed

GIRLS! GIRLS! TRY IT, BEAUTIFY YOUR HAIR

Make it thick, glossy, wavy, luxuriant and remove dandruff—Real surprise for you.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Dandarine hairman" cleanse—moisten a cloth with a little Dandarine and carefully taking one small strand at a time. This will cleanse the hair of dust, draw it through your hair, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Dandarine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp forever druggist or toilet counter, and just But what will please you most will be after a few weeks' use when all over the scalp bmm bmm in you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it surely get a 25 cent bottle of Knowlton's Dandarine from any druggist or toilet counter, and just try it—Adv.

QUICK RELIEF FOR RHEUMATISM. A deal was closed Tuesday whereby William Kastrop conveyed to H. L. Purdy the two Stewart houses on South Church street across from the academy in exchange for a 140-acre farm, part in Cass and part in Morgan counties, four miles west of Arzenville. The deal was closed by F. W. Sibert.

QUICK RELIEF FOR RHEUMATISM. George W. Koon, Lawton, Mich., says: "Dr. Detchon's Relief for Rheumatism has given my wife wonderful benefit for rheumatism. She could not lift hand or foot, had to be lifted for two months. She began the use of the remedy and improved rapidly. On Monday she could not move and on Wednesday she got up, dressed herself and walked out for breakfast." Sold by L. P. Allcott, druggist—Adv.

### REPORTS ON PROBABLE COST OF LOCAL LIGHT PLANT

Are Outlined in Letter Read Tuesday Night Before Chamber of Commerce Directors—Vary From Former Offers.

The following letter directed to H. J. Rodgers, chairman of the public affairs committee of the Chamber of Commerce, and signed by W. B. Miser, was read last night at the directors' meeting:

**Items of Equipment.**  
1. About 180 arc lamps, 9.6 amp direct current open arcs in residence district. These lamps are mostly out of repair and represent no value except for scrap.  
2. About 49 5 ampere, multiple enclosed, direct current arc lamps in the business district. These are have no more value than those in item No. 1.

3. About 60 miles No. 6 copper wire for arc lamps. There is no insulation on most of this wire. It will all have to be removed. This wire has a scrap value of about 15c per pound, which would furnish about enough money to pay for removing the old equipment from the city streets.

4. Poles for support of wires and lamps. Part of the wire is strung upon the poles of the lighting company and of the telephone companies. The poles as fixtures have little value if they have been in place more than ten years.

5. 2-are light generators and switchboards and one extra armature, 9.6 amp, 5,000 watt generators made by the Fort Wayne Electric Works, Fort Wayne, Ind. These have a small scrap value.

6. 1-Russell engine 16x24, 147 R. P. M. belted. This machine is capable of developing about 150 H. P. with a boiler pressure of 190 pounds and no back pressure. Its condition was not determined.

7. 1 direct connected set consisting of an Ideal engine 10x10, 230 R. P. M., and a 220-volt, 37 1/2 K. W. direct current generator built by the Fort Wayne Electric Works. This also includes a switchboard feeding 4 multiple arc circuit and some lights in the city building.

8. 5-100 horse power boilers and settings. These are of the horizontal, return tubular type. Two of these are 13 years old and the other 10 years. Their value is difficult to determine as the first two have already outlived the ordinary life of boilers.

9. 1-brick chimney 108 feet high, 4 1/2 foot flue. This chimney is now in excellent condition. It is sufficient for 300 horse power in boiler capacity.

10. New unit consisting of a Hamilton Corliss engine 17x24, 800 R. P. M., direct connected to a Fort Wayne 2300 volt, three phase, 43.5 ampere generator capable of furnishing power to the water works station.

11. Building containing station equipment. This building is of brick and in need of repairs. If such new equipment is to be installed a complete new layout should be made probably requiring a new building.

#### Location of Power Plant.

The present power plant is located near the City Hall on land owned by the city. At present it has no connection with the railroads for convenience in handling coal and ashes. There is no water available for condensing purposes. If either or both of these conveniences could be secured thereby, a new location should be chosen. However, the power station is conveniently located to the business district so heating mains could be laid to bring in revenue to the city. For such a purpose the power should be located on land lower than that occupied by the portion heated so that return condensation could drain back by gravity.

**New Lighting System.**  
Proposal A. This system is the one proposed by the commissioners. It consists of 180 arc lamps in the residence district fed by overhead circuits and 88 5-light and 96-3 light standards on posts in the business district, fed by an underground system consisting of an armored cable laid in the ground. Since the city is approximately 2 miles square and the block average 500 ft there will be about 10 blocks to the mile or 400 intersections. This will mean that the arc lamps will have to be placed on an average, more than 100 feet apart. This will be entirely inadequate for street illumination. Placing 184 standards in the business district will give very good illuminations there, but an unfair division

of the lighting between business and residence portions.

Proposal B. This proposed layout makes use of incandescent lamps throughout. In the business portion 5 light standards are used around the public square and 3 light standards as follows: Main street from Wabash tracks to College street, State street from Church to Clay in the rest of the business district bounded as follows: North Church street, Lafayette avenue, Washington street, East street, W. State street, Illinois avenue, College avenue, S. Main street, W. College street, S. Prairie street and W. State street, single light posts with a 100 candle power lamp in a 16-inch alba globe are spaced at distances varying from 100 feet near the public square to 250 feet as the street merges in to the residence portions. These lights are to be fed in series through the underground armored cable. The remaining residence portion will be lighted by bare Mazda lamps supported either directly over the street or from brackets on the poles. Each lamp is to be equipped with a 20-inch radial wave reflector or its equal. This will be given a lamp at every street intersection. Where it appears to be necessary other similar lights are placed on brackets between street intersections. The distance between lamps varies from 250 to 500 feet. By the use of the Mazda lamp a more elastic system and a more uniform light distribution is secured since these lamps are manufactured in sizes from 25 to 500 candle power at any time. Most of these lamps should be of 100 candle power except where spaced further apart at the outskirts of the city. It is proposed to use 16-5 light, 38-3 light and 53-1 light standards and about 570 lamps supported either over center of the street or on brackets at the side of the street.

**Cost of Lighting and Distribution System.**  
In Table II is given the estimated cost of the power plant to supply the distribution systems corresponding to Table I. As much as possible of the old equipment is to be used.

Three 500 K. W. generating units are provided to take care of the existing load in the city and the lighting and pumping load. The new set just being installed can probably be used as one of these units. The cost of one generating unit can be deducted if this unit is now provided for in any other manner. If a complete system is installed an entire new power plant and boiler room layout should be made to permit of a saving in cost of installation and in operating expenses. This should be done by a competent engineer and the plant installed under his supervision.

**Power Requirements.**  
The proposed lighting systems will require the following amounts of power.

Proposal A—  
180 arcs, 450 watt.... 90 K. W.  
184-100 C. P. Mazda.... 18.4 K. W.  
544-60 C. P. Mazda.... 49.8 K. W.

Total ..... 149.2 K. W.  
Losses 10 per cent.... 14.9 K. W.  
164.1 K. W.

Proposal B—  
644-100 C. P. Mazda.... 64.4 K. W.  
136-60 C. P. Mazda.... 10.2 K. W.

76.6 K. W.  
Losses ..... 7.7 K. W.  
84.3 K. W.

It is seen that Proposal A requires twice as much power as Proposal B, and gives a less uniform illumination.

The present commercial load of the city including that required for pumping has a maximum demand of nearly 500 K. W. The street lighting load coming at a time in the day when other loads have fallen off will bring the maximum load to nearly 600 K. W. by Proposal A, and about 550 K. W. by Proposal B. This is about normal at the present time for other cities of about the same size. This load could however, be further developed by careful commercial canvassing which fact should be borne in mind in the layout of the power plant.

A portion of the report of Prof. J. M. Bryant of the University of Illinois on the local lighting situation is as follows:

The report presented comparative costs for three Wisconsin cities showing the per capita for plants: Manitowish, \$8.47; Madison, \$20.77; and Beloit, \$15.10. Elaborate and detailed tables indicated the relative costs of arc and tungsten systems and of plans for municipal purposes only and also for commercial purposes.

**Recommendations.**  
1. The present municipal lighting equipment of Jacksonville has but little physical value.  
2. From reports of similar cities it is seen that the cost of a complete system should be about \$15 per capita.

3. For a complete distribution system and power plant for street, residence and commercial lights approximately \$200,000 will be needed.  
4. For a street lighting system alone and power plant to supply only the same, approximately \$60,000 will be needed.

5. Before any system is adopted a further investigation should be made to determine the proper rate to be charged for each of the different classes of service in order to insure financial success. It is probable that this rate will be excessively high when street lighting alone is considered.

6. It should be understood that this report is based upon a very brief investigation of the conditions in your city. It is possible that some of the items would need to be altered but the total cost is approximately correct for the proposals suggested.

**PASSAVANT BENEFIT SOCIAL.**  
The Passavant benefit social at the home of Mrs. Edward P. Kirby Tuesday afternoon was well attended and a neat sum was realized. The occasion was in the form of a "dime social" and was in charge of the ladies of Westminster and the Congregational churches. The committee chairmen were Mrs. Miller Weir and Mrs. J. G. Capps.

## Each Week We Will Publish

in these columns under the title

# STORE NEWS

## A List of Seasonable Items

On which the money saving possibilities will be easily recognized.

"Store News" for Week Commencing November 10th

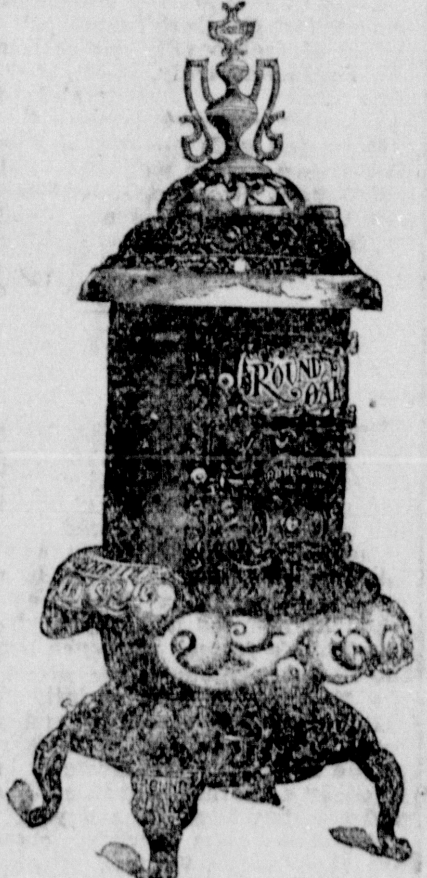

24 inch Comfort Challies, a yard	3c	10c Brown Cotton Flannel, a yard	6c
36 inch Dress Percales, a yard	8c	40 inch Silk Poplin, all colors, at	89c

## Millinery at Half Price!

This sacrifice price in millinery will be the most welcome cut price news you have heard in Jacksonville for some years. **THINK OF IT! EARLY IN NOVEMBER AND MILLINERY AT HALF PRICE.** But this is our loss. We made the mistake and you are going to profit by it. Hundreds of beautiful trimmed hats all shapes and colors, trimmed with the very richest of leathers, flowers, plumes, etc. Hats that are right up in the very latest style are now at half price. Don't wait, but come while the stock is at its best.

\$20.00 hats are now	\$10.00	\$8.00 hats are now	\$4.00
\$17.50 hats are now	\$8.75	\$6.50 hats are now	\$3.25
\$15.00 hats are now	\$7.50	\$5.00 hats are now	\$2.50
\$10.00 hats are now	\$5.00	Special prices on hats made to your order	

While you are looking after a fall hat look at our Ladies' All-Wool Suits; Satin Coat, satin lined through. The very best suit in Jacksonville for \$15.00. Make our store your headquarters for your winter needs.

**FLORETH CO.**

## Attractive Styles for Careful Dressers!

New styles come thick and fast now days—it seems almost impossible to keep up with them. Our aim is always to be in the lead in showing the season's latest offerings.

We want you to know that we offer the very best opportunity for footwear buying. A large assortment of the very latest creations, where quality is the watchword, where buying is pleasant and treatment the best.

Just now we are showing the popular leathers in the prevailing shapes—drop toes, raised toes, English walking boots and baby dolls. You will find what you want in our large assortment.

Special attention is given to growing girls' shoes, with low heels in all leathers. Trust your feet with us.

WOMEN'S SHOES \$1.50 to \$5.00

**WE REPAIR SHOES**  
Our workmen are practical shoemakers.

**HOPPER'S**

**BARGAIN COUNTER**  
Offers many choice bargains in broken lots.

### LIGHT COMPANY HAS NEW PROPOSITIONS

Prof. Bryant Presents Comparative Figures Based on Experience of Other Cities—Tungsten System Much Cheaper to Operate Than Arcs.

In Table I is given the estimated cost of the distribution system covered by Proposals A and B, these letters appearing at the top of their respective columns. The first column under each letter is for a complete system for street, residence and commercial lighting. The second column is for the street lighting system alone. To basis upon which each item is calculated is given in the extensions.

Comparing with your request of even date, we submit to you the following proposition:  
For lighting the City of Jacksonville we will furnish, install and operate a street lighting system, in the City of Jacksonville, which will include the following:

60-3 light posts.  
75-1 light posts.  
545-1 light swing brackets.  
Same to burn from dusk until daylight every night in the year, for the sum of \$15,000.00 per year. In this proposition we will make the proper allowances for any outages that may occur.

Or  
We will furnish current to light the above mentioned equipment, delivered to the switch board of the City of Jacksonville, for the sum of \$9,000.00 per year.

Either of the above propositions are contingent upon us being awarded a Street Railway Franchise for twenty (20) years, with the provision that we sell six (6) street car tickets for twenty-five cents; also at electric franchise for thirty (30) years, the maximum net amount charged for current to be ten (10) cents per kilowatt hour, with a sliding scale for large consumers. A gas franchise for thirty (30) years, with the maximum net charge of one dollar and ten cents (\$1.10) per thousand cubic feet, with a sliding scale for large consumers. A steam heating franchise for thirty (30) years, with a maximum net charge of one dollar (\$1.00) per thousand pounds of condensation, with a sliding scale for large consumers; a proviso in this franchise that work must be started in two (2) years from the final passage of the same and completed within three (3) years.

All the above mentioned franchise fees will provide competent regulation as regards to service and safety, and all rates subject to revision by the State Utility commission at any time.

In event of the foregoing proposition going through, we will pay to the City of Jacksonville three (3) percent of the gross receipts on all income of our four (4) utilities from

the sale of: gas, electricity, railway service and steam heat within the city limits of the City of Jacksonville. And in addition to the above we will furnish the same amount of light that we are now furnishing Nichols park free of charge.

With the addition of the street lighting our income at the present time would be approximately \$250,000.00 per year. Three (3) percent of the same amount would be \$7,500.00.

We estimate that our income from steam heating, the first year would be \$50,000.00, with a gradual increase each year, but on a \$50,000.00 basis would make an income to the city of \$1,500.00 per year, or a total from our utilities of \$9,000.00 per annum.

Greatly appreciating the opportunity that you give us in submitting you this proposition and assuring you that both myself and the company are willing to co-operate with the City of Jacksonville on any proposition for the betterment of the people of Jacksonville, we remain,  
Yours very truly,  
General Supt.

Boys and girls novelty play suits now shown in our windows—Indian and Squaw, Broncho, Cow Puncher and West Point Suits and Cowboy Chaps. Orders taken now for Christmas delivery.

Myers Bros.

### MORTUARY

Howe.

Mrs. T. S. Knoles of Hardin avenue received a message recently of the death of her brother-in-law, George Howe, a former resident of the county, which occurred at his home in Aurora, Neb. He was 77 years of age and had been in very poor health since a short time ago when he suffered a paralytic stroke. Mr. Howe's former residence was in the Pisgah neighborhood. None of the relatives in this vicinity were able to attend the funeral Sunday on account of the lateness of the arrival of the message. Mr. Howe is survived by a brother, Aaron of Pisgah, and a sister, Mrs. Anna Frye of the same place. His surviving children are Mrs. Norah Walters of Aurora, Neb., Guy Howe of Sargent, Neb., and Clyde Howe of Bay View, Wash.

All Alike.

Miss Agnes Reppier tells in the Atlantic a story about a New York social worker, a woman of earnest character and intelligent methods, who had worked hard to establish respectable lane halls for poor girls. The woman delivered an address at a meeting, a young married woman of a wealthy and fashionable set inquired whether as girls for whose welfare the work was being conducted never stayed at home. "Never," replied the speaker, and you will pardon me for saying it, either do you.

### VETERAN DIES ON BIRTHDAY

J. R. HAMILTON ANSWERS LAST ROLL CALL.

Soldier of the Civil War Succumbs to Heart Failure While Celebrating His 72nd Birthday at Home in Winchester—Was Farmer by Occupation.

While John Riley Hamilton, a civil war veteran of Winchester, was celebrating his 72nd birthday anniversary Tuesday, he suffered an attack of heart failure and died at 4:15 o'clock.

Quite a number of relatives and friends had gathered at the Hamilton homestead, one mile northeast of Winchester, in honor of the occasion. A bountiful dinner had been served and Mr. Hamilton was receiving the congratulations of his many neighbors. About 4 o'clock he went out into the yard, but no sooner had he arrived there than he began to feel dizzy and so re-entered the house and laid down on the bed, expiring a few moments later. A physician was summoned but nothing could be done to restore life.

Mr. Hamilton was a man highly regarded and widely known throughout Scott county. At the breaking out of the civil war he enlisted in the Fifth Illinois regiment and was a valiant soldier, having been in some notable engagements. Since the war he had followed the occupation of a farmer. He was a member of the Christian church and of the Winchester order of G. A. R.

Besides his wife he is survived by four children, James T. and Emma of Winchester, Otis and Mrs. William Dean of Manchester, one sister, Mrs. Mitchell Battershall of Pike county; also two half-brothers. No funeral arrangements have been made.

Rapid Passage.

"Do any of the good things you hope for come to pass?"  
"They all come to pass, but they come and pass so doggedly swift I can't grab 'em."—Houston Post.

Real Fame.

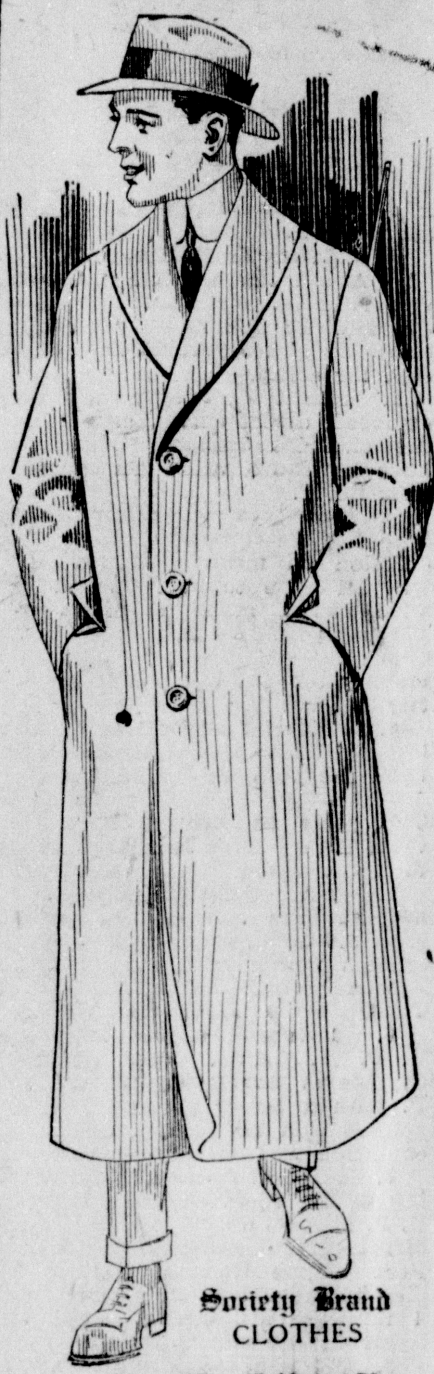

"My grandfather flew his own pennant as a commodore in the navy."  
"Yah! My grandfather helped capture one in a world's series."—Pittsburgh Post.

Disappointed.

Dorcas—You say the hero was disappointed in love? Doubtful. Yes. He thought that after marriage his father-in-law would support him.—Judge.
